

Dear John and the Convin Team,
Congratulations, John, and a heartfelt thank you to Convin for organizing such a successful event. The overall figures reflect not only the financial success but also the scientific achievements and the seamless organization of MIE 2024 as a whole. Your hard work and dedication have not gone unnoticed.

Well done, and congratulations to everyone involved in making this happen! One of my personal highlights was the memorable dinners beneath the Acropolis—it's a moment I think about every day. And, John, your guided tour of the museum was truly special. It gave me a deeper appreciation of Athens' profound influence on the formation of the world as we know it today.

I'm looking forward to the evaluation report and to continuing our cooperation in the future. Ariel, you will decide about further Zoom meetings with Convin. As Aristotle wisely said, "*The whole is greater than the sum of its parts.*" MIE 2024 was a testament to the power of collaboration and continuity, where each contribution strengthened the foundation for future success.

Greetings from Sweden
