# Welcome messages

**Dominique Declerck,**  
EAPD 2024 President

The **European Academy of Paediatric Dentistry** is welcoming you to its **17<sup>th</sup> EAPD Congress**, to be held in Gothenburg, Sweden in 2024.

It is my pleasure to welcome you, on behalf of the EAPD Board, to this unique scientific event where the state-of-the-art of a variety of topics within the field of paediatric dentistry will be discussed and presented.

The main theme of our Congress is **‘Handling children with care’**. The meeting will cover topics dealing with Communication, Behaviour management and Dental Anomalies, with a pre-congress focusing on Dental Erosion. Join us at this occasion and share your own research and expertise with your colleagues!

**June 12-15, 2024**, Gothenburg is the place to be for paediatric dentists who want to learn about the latest developments within the field of paediatric dentistry. The event will provide a forum for participants to network with colleagues from all over Europe and beyond.

Gothenburg is Sweden’s second largest city, situated on the scenic west coast, celebrating its 400th anniversary in 2023. Gothenburg is a pocket-size metropolis, with many of its attractions at walking distance – or a Gothenburg tram ride away. There is no better place to enjoy high-quality, locally sourced seafood than in one of Gothenburg’s many fish restaurants. But what really sets Gothenburg apart is its commitment to going green.

The city has many things to offer, guaranteeing a challenging social program. The Local Organizing Committee is doing its utmost to make it an unforgettable event.

**LOOKING FORWARD TO WELCOMING YOU IN GOTHENBURG!**

**Nina Sabel,**  
President of the  
Swedish Society  
of Paediatric  
Dentistry

I am happy to invite you to join us during the most radiant time of the year, June, when we bask in 18 glorious hours of daylight per day. I hope that your visit to our charming city, celebrating its 400th anniversary, will be a truly enjoyable experience. As you explore Sweden, you’ll discover that it is also the birthplace of every paedodontist’s best friend – the local anaesthetic substance of Lidocaine, Xylocain<sup>®</sup>.

I hope that the 17th Congress of the EAPD will enlighten and inspire you, enriching your future dental work with children.

Wishing you all the best and looking forward to a successful and rewarding congress!

Warm regards,

# Organizers

## European Academy of Paediatric Dentistry (EAPD)

The European Academy of Paediatric Dentistry (EAPD) is a prestigious organization dedicated to the advancement and promotion of oral health care for children and adolescents throughout Europe. With a mission to enhance the knowledge, skills, and expertise of dental professionals in the field of pediatric dentistry, the EAPD plays a vital role in ensuring optimal oral health outcomes for young patients. Through its collaborative efforts, the EAPD fosters the exchange of ideas, research, and best practices among its members, including dentists, researchers, academicians, and other oral health professionals. By providing a platform for knowledge sharing and education, the EAPD strives to improve the quality of pediatric dental care, advocate for the oral health needs of children, and contribute to the overall well-being and development of young individuals across Europe.

## Swedish Pedodontics Association (SPF)

The Swedish Pedodontics Association or Svenska Pedodontiföreningen (SPF) is an association for specialists and dentists under specialist training in pedodontics (child and adolescent dentistry). The pedodontist specializes in diagnostics, therapy planning and treatment of children and adolescents in dental care and receives patients who are in need of special care after referral from other dentists and from other health care.

The Swedish Pedodontics Association: works to promote the development of child and adolescent dental care in Sweden and safeguards a high quality of dental care for children and adolescents with the goal that all children should have good oral health organizes training for both specialists and general dental care by arranging Spring Meetings, Children's Dental Days and at the Odontological National Meeting awards annual scholarships for research in child and adolescent dentistry publishes the member magazine Barntandläkarbladet

The association is affiliated to the International Association of Paediatric Dentistry and is an Associate member of the Swedish Dental Association.

**Prof. Sondos Albadri**  
University of Liverpool, United Kingdom

Sondos is a Professor in Paediatric Dentistry and is the Vice Dean for Research and Postgraduate Studies at the University of Liverpool. She works clinically as a consultant at Alder Hey Children's Hospital. Sondos's research focuses on improving the quality of clinical outcomes, enhancing patient experience, and optimising care pathways, with a special interest in Dental Trauma and Children with complex health conditions. Sondos developed the PG programme in Liverpool and holds various leadership roles, including chair of the Royal College of Surgeons England Faculty of Dental Surgery research committee. She served as the President of the British Society of Paediatric Dentistry in 2021/2022. Sondos is the UK Councillor for EAPD and a member of the educational committee.

**Dr. Bashar Al-Khalili**  
Eastman Institute Stockholm, Sweden

- Senior consultant at the Dept. of Oral & Maxillofacial Surgery at Eastman Institute in Stockholm, Sweden since 2004.
- Board certified specialist.
- Main areas of interest and expertise:
  - Dentoalveolar surgery in children and youth.
  - Reconstructive and implant surgery in young patients.
  - Juvenile jaw bone pathology and abnormalities.
  - Dental auto-transplantation.

**Dr. Kristofer Andersson**  
Public Dental Service, Region Västra Götaland, Sweden

Kristofer Andersson, DDS, PhD, is a specialist in pediatric dentistry. He works at the Clinic of Pedodontics, Public Dental Service, Region Västra Götaland, Gothenburg, Sweden and has a position as adjunct senior lecturer at the Department of Pediatric Dentistry, Sahlgrenska Academy, University of Gothenburg. Kristofer is also affiliated with the Department of Orthodontics and Pediatric Dentistry at Karolinska Institutet, Stockholm and Mun-H-Center – National Orofacial Resource Centre for Rare Disorders in Gothenburg.

His areas of special interest are genetics and oral health in rare diseases, tooth developmental disturbances and management of dental fear and anxiety.

**Dr. Elias Berdouses**  
Private Practice, Athens, Greece

Dr. Berdouses received his Dental and PhD Degrees from the National and Kapodistrian University of Athens, Dental School, his Certificate in Paediatric Dentistry and Master's in Oral Biology from Rutgers University, USA. He has taken part in two European research projects funded by EU and in two National pathfinder studies in Greece. He has published in National and International journals and has lectured in National and International congresses and seminars. Dr. Berdouses has served as Secretary and Vice-President of the Hellenic Society of Paediatric Dentistry and as Secretary, President Elect, President and currently is Past President of the EAPD.

# Invited Speakers

**Dr. Henrik Berlin**  
Malmö University, Sweden

Dr. Henrik Berlin, assistant senior lecturer in Pediatric Dentistry, is a staff member at the Faculty of Odontology, Malmö University, Malmö, Sweden. Main research area is focused on procedural and postoperative pain in pediatric dentistry; what causes pain, who experience pain, and how does dental professionals handle potentially painful situations. His research also concerns areas such as attitudes towards dental care from the child patients', legal guardians', and dental professionals' perspective. Currently, he is involved in a project where digital pain rating instrument is tested and under validation for future use. His research involves both quantitative and qualitative methods.

**Prof. Agnes Bloch-Zupan**  
University of Liverpool, United Kingdom

Agnès Bloch-Zupan is Professor in Oral Biology at the Faculty of Dentistry, Université de Strasbourg, France. She coordinates the Reference Center for Rare Oral and Dental Diseases, CRMR O-RARES of the Strasbourg University Hospitals and affiliated French network. She created and chairs the scientific committee of the D(4)/phenodent database ([www.phenodent.org](http://www.phenodent.org)) as well as the genetic diagnosis NGS tool GenoDENT. She is in charge in her hospital of the portfolio linked with the European Reference Network ERN CRANIO, where she leads the subgroup on dental developmental anomalies. She conducts translational research activities on rare diseases and their oral expressions at the Institute of Genetics and Molecular and Cellular Biology of Strasbourg, IGBMC, CNRS-UdS UMR7104, Inserm U1258, in Illkirch.

Further details on her publications can be found at:  
<https://orcid.org/0000-0002-6511-2615>

**Dr. My Blomqvist**  
Helsinki University Hospital, Finland

Dr. Blomqvist was awarded DDS from Helsinki University, Finland, in 2000, PhD from Karolinska Institutet, Stockholm, Sweden, in 2007, and completed her postgraduate training in pediatric dentistry at Helsinki University in 2016. At the moment she works at the Helsinki University Children's Hospital both as a clinician and a researcher. Dr. Blomqvist's research focuses on children with congenital heart defects, and children and young adults with ADHD and autism spectrum disorders. In her clinical work Dr. Blomqvist is experienced in children with chronic conditions, neuropsychiatric disorders, and pedagogical methods to manage dental care for children with autism.

**Prof. Nagihan Bostanci**  
Karolinska Institutet, Sweden

Prof. Nagihan Bostanci, DDS, PhD, AFHEA is Head of Internationalization in Dentistry Programme and Professor of Inflammation Research in Periodontics.

# Invited Speakers

**Prof. Esti Davidovich**  
Hebrew University, Israel

Prof. Esti Davidovich, graduated from dental school in 2001 and her residency in 2005 at the Hebrew university Hadassah school of dental. She obtained her master degree at the same institution. She is clinical associate professor at the department of paediatric dentistry at the Hebrew university and Hadassah school of Medicine.

Since 2020 she is the President of the Israeli Society of Paediatric Dentistry. She has over 50 publications, comprising of research papers/books/articles. Her research and clinical interests are in the fields of digital paediatric dentistry, saliva research in medically compromised children and electric toothbrushes in children. She won research grants and prizes along the years.

**Prof. Dominique Declerck**  
KU Leuven, Belgium

Dominique Declerck is full professor at KU Leuven (Belgium) where she is responsible for the undergraduate teaching in preventive & public health dentistry, pediatric dentistry and special care to dental trainees. She coordinates the postgraduate training program in Pediatric dentistry and Special dental care. Within the University Hospitals Leuven, she provides dental treatment to children, patients with disabilities and medically compromised patients, with main focus on preventive aspects.

She is (co)-author of more than 150 peer-reviewed international papers.

**Prof. Monty Duggal**  
Qatar University, Qatar

Prof Duggal obtained his dental degree and MDS in Paediatric Dentistry from India. He then immigrated to the United Kingdom and obtained his FDSRCS from the Royal College of Surgeons of England and his PhD from University of Leeds. He was appointed Professor and Chair of Child Dental Health at University of Leeds, Leeds Dental Institute in 1999 where he oversaw a large postgraduate programme in Paediatric Dentistry which has international acclaim. In January 2017 he was appointed as Professor and Head of Paediatric Dentistry in Faculty of Dentistry, National University of Singapore and then as the Vice Dean and Faculty Research Director of the National University Centre for Oral Health, Singapore (NUCOHS). In January 2021 he was invited to become the Inaugural Dean of the first College of Dental Medicine in Qatar, Qatar University.

He has served in various senior positions, and was President of the European Academy of Paediatric Dentistry from 2014-2016 and has been on the board of EAPD for last 10 years. Professor Duggal has published over 175 research papers in international journals and is author of "Restorative Techniques in Paediatric Dentistry, which has been published in 7 languages and has sold over 16,000 copies worldwide. He is also a co-author of a textbook on Dental Traumatology and has Co-Edited "Paediatric Dentistry" by Oxford, now in its 5th edition and is the most widely followed textbook in Paediatric dentistry in the world. More recently he authored "Paediatric Dentistry at a Glance", published by Blackwell Willey.

He has administered research grants totaling over seven million pounds and is an internationally recognised researcher and clinician with main research interest is Cariology and Translation Research in Clinical Paediatric Dentistry, including dental traumatology and regenerative endodontics and auto-transplantation. Apart from Paediatric Dentistry his main interest is playing and watching cricket and any time spare from work and family is devoted to this important activity.

# Invited Speakers

## **Prof. Sotiria Gizani**

**National and Kapodistrian University of Athens, Greece**

Sotiria Gizani obtained her Dental Degree from the University of Thessaloniki and then completed her 6-year postgraduate studies in Paediatric Dentistry at the Catholic University of Leuven (KU Leuven, Belgium), including the degrees of Master in dental sciences and Doctorate (PhD). Since 1998, she has been working at the Department of Paediatric Dentistry in the National and Kapodistrian University of Athens (Greece), where she is currently Associate Professor and Chair of the Department as well as Director of the Postgraduate program, one of the eight EAPD accredited postgraduate programs in Europe. Dr Gizani is currently the Vice Dean of the School of Dentistry of the National and Kapodistrian University of Athens. She is a Visiting Professor in the Catholic University of Leuven (Belgium) and the General Secretary of EAPD.

Moreover, she has published more than 70 papers in peer-reviewed journals and received international awards while she is member of the Editorial Board of the Journal 'European Archives of Paediatric Dentistry', Journal of Clinical Pediatric Dentistry and 'Oralprophylaxe & Kinderzahnheilkunde' (Springer). She has lectured in many international conferences. Her research interests focus mainly on clinical trials regarding prevention and management of caries in young children, oral health care of patients with special needs and vulnerable children as well as communication and behavior management in the dental setting.

## **Prof. Robert Hill**

**Queen Mary University of London, United Kingdom**

Professor Robert Hill is a Materials Engineer. In the 1980s he was part of the group at the UK Government Chemist that won the Queens Award for the development of Glass Ionomer Cements.

In the 1990s he became a Professor at Imperial College where he worked with Larry Hench, the inventor of Bioglass.

In 2010 he moved to the Dental Institute at Queen Mary and filed a key patent of Fluorine containing bioglasses. This led to the founding of BioMin Technologies Ltd who now sell BioMinF toothpaste that releases calcium phosphate and fluoride and promotes remineralisation.

The technology is being exploited further for dental varnishes, orthodontic cements etc.

Professor Hill has published over 300 papers and 25 patents and won numerous awards and is this years winner of the Chapman Medal.

## **Dr. Helen Isaksson**

**Jönköping University, Sweden**

Helén Isaksson graduated at the Karolinska Institute in 1992. She is working as a Senior consultant at the Dep of Paediatric Dentistry at the Institute of Postgraduate Dental Education in Jönköping since graduation in 2006. Helén is also the Main Supervisor of the Postgraduate Education at the Dep of Paediatric Dentistry at the Institute. In 2013 she defended her doctoral thesis at the Sahlgrenska Academy, University of Gothenburg and since 2023 a lecturer at the School of Health and Welfare at Jönköping University. Helén is secretary in the Swedish Society of Pediatric Dentistry.

# Invited Speakers

**Dr. Reinhilde Jacobs**  
KU Leuven, Belgium

Reinhilde Jacobs is dentist, Doctor in Dental Sciences (PhD University of Leuven), periodontologist (KU Leuven) and Master in Dental Radiology (University of London). She is full professor at the University of Leuven and visiting professor at Karolinska Institutet, Stockholm, Sweden and the Dalian Medical University in China. R. Jacobs is heading the omfs impath research group of the KU Leuven ([omfsimpath.be](http://omfsimpath.be)) and the clinical center of dentomaxillofacial radiology (UZLeuven). She is Secretary General of the International Association of DentoMaxilloFacial Radiology. She is section editor of 4 journals (Clinical Oral Investigations, International Journal of Oral Implantology, European Journal of Radiology and Oral Radiology). She has received the D Collen Research Travel Award (1994), a postdoctoral fellowship of the European Commission (1994-95), the IADR Young Investigators Award (1998) and the Belgian Joachim Award in Odontostomatology (1999). In 2013, she received a Dr Honoris Causa at the “Iuliu Hatieganu” University of Medicine and Pharmacy in Cluj-Napoca.

She is involved in many multidisciplinary and interuniversity research collaborations, with a specific focus on imaging research, artificial intelligence and bioprinting. She has been actively participating in 5 European projects and is (co-)author of 5 books and more than 600 publications in peer-reviewed journals besides multiple invited lectures and publications in other journals or books.

**Dr. Agneta Karsten**  
Karolinska Institutet, Sweden

Agneta Karsten is Head of the Unit of Orthodontics at the Department of Dental Medicine at Karolinska Institutet in Stockholm, Sweden. She got her Dental Degree at Karolinska Institutet and her Postgraduate Orthodontic training at the University of Bergen in Norway. She defended her Ph.D.thesis at Karolinska Institutet in 1995. She became Docent (Associate Professor) in 2005 at Karolinska Institutet. Her main research topic is related to genetics and treatment of children with cleft lip and palate. She has more than 50 scientific papers published in peer reviewed journals. She lectures nationally and internationally.

She is secretary of NEBEOP (Network of Erasmus Based European Orthodontic Postgraduate Programmes). She is responsible for the undergraduate and postgraduate orthodontic programmes at Karolinska Institutet. She has been Head of the orthodontic cleft team in Stockholm for more than 20 years as well as Head of the Orthodontic clinic. She supervises researchstudents in all levels.

**Prof. Gunilla Klingberg**  
Malmö University, Sweden

Gunilla Klingberg is Professor of paediatric dentistry at the Faculty of Odontology at Malmö University where she also serves as an Adviser to the Vice-Chancellor. Her research focuses on how to ensure every child's right to good oral health, oral health of children in foster care, pain and qualitative methods applied to dental science. She is currently on a national working group for guidelines for healthcare professionals regarding child abuse.

# Invited Speakers

**Prof. Norbert Kraemer**  
Giessen University, Germany

Prof. Krämer obtained his PhD from the University of Erlangen in 1997. Between 2006 and 2009 he was the chair of the Department of Paediatric Dentistry in Dresden. In 2009 he was appointed to the Director of the Department of Paediatric Dentistry at the University of Gießen. He was elected in different positions (2000-2004 President of the German Society of Paediatric Dentistry [GSPD], 2010 – 2012 President of the EAPD, 2015-2019 again President of the GSPD, 2017-2020 member of the Board of Directors of the IAPD. He is in the Editorial Board of several peer-reviewed journals. He has published ca. 200 research papers/books/articles.

**Dr. Pernilla Lif Holgerson**  
Umeå University, Sweden

Docent, Associate professor in Pediatric dentistry.

Senior consultant in Pediatric dentistry.

Head of Department of Odontology, Umeå university. Research focus on development and importance of the oral microbiota in children in relation to oral and general health.

**Prof. Peter Lingström**  
University of Gothenburg, Sweden

EDUCATION: DDS, Malmö University, 1986, PhD, University of Gothenburg, 1993, Professor, Cariology, 2008

POSITIONS: Head, Department of Cariology, 2013, Director, Institute of Odontology, 2018

PUBLICATION: Altogether 145 published original and review papers. A total of 7 book chapters have been published.

ASSIGNMENTS: Board Member (President 2002-2004, 2011-2012), Scandinavian Division of International Association for Dental Research (NOF). 1999 – present. Treasurer/Secretary, The Patent Revenue Fund for Research in Preventive Odontology. 2013 – present.

AWARDS: Acta Odontologica Award 2011, Student Union Award to Excellent Teacher 2013, Forsbergs Dental Prize, Sweden 2014, The Erlander Prize, Gothenburg Dental Association 2018

# Invited Speakers

## **Prof. Adrian Lussi**

University of Bern, Switzerland University Hospital for Conservative Dentistry & Periodontology, Innsbruck, Austria

1974 – 1979 Studies of Chemistry at ETH, Zurich, Switzerland, master`s degree

1978 – 1983 Studies of Dental Medicine in Zurich and Bern,

1998 Professor at the University of Bern, Switzerland

2018 – present Guest professor at the University Hospital for Conservative Dentistry and Periodontology, Medical University of Innsbruck, Austria and Department of Operative Dentistry and Periodontology, University Medical Centre, Freiburg, Germany

Over 500 publications

Editor or Co-editor of 15 books

### **PRIZES**

IADR-Distinguished Scientist Award for Research in Dental Caries, Yngve Ericsson Preis for Research in Cariology, ORCA-Prize for Caries Research

Pediatric Dentistry: Rudolf Hotz memorial prize: 4x

Wrigley-prophylaxis prize: 4x

## **Dr. Nick A. Lygidakis**

Private Paediatric Dental Clinic, Greece

Nick A. Lygidakis is running a private clinic in Athens and until 2016 he has served as Senior Consultant and Director in the NHS Regional Dental Centre for Children in Athens. He has also been teaching in the postgraduate programs of the Universities of Leeds, UK and Giessen, Germany and in the former being Honorary Reader since 2002.

He qualified from the University of Athens and fulfilled his postgraduate training in Paediatric Dentistry in Athens, Oxford and London. He holds a MScM in Genetics, a MScD in Child Dental Health and a PhD.

He has served as President and Secretary of EAPD and as President of the HSPD. He has been involved in the organization of a great number of European and Greek scientific and CPD activities, including the 'EAPD Hermes and Athena' European programs that he first introduced. Since January 2019 he serves as Editor in Chief of the European Archives of Paediatric Dentistry.

He has 62 publications, with more than 3600 Google scholar citations, 250 abstracts and more than 300 invited lectures in Congresses and Seminars. His research and clinical interests are in the fields of dental anomalies, paediatric dental general anaesthesia, trauma, prevention and interceptive orthodontics.

He has been awarded with various awards and distinctions, including honorary Fellowship of the Royal Society of Medicine in UK, Fellowship of the International College of Dentists and Membership of the American Association for the Advancement of Science and the New York Academy of Science.

# Invited Speakers

## **Prof. Phoebus Madianos** National and Kapodistrian University of Athens, Greece

Dr. Phoebus Madianos is Professor and Chair of the Dep. Of Periodontology at the School of Dentistry, National and Kapodistrian University of Athens. He has been the former Dean of the School of Dentistry and he is currently the Director of the Graduate Program in Periodontology and of the Osseointegrated Implant Center.

He has been President of the European Federation of Periodontology (EFP, 2015), as well as Chair of the Scientific Affairs Committee of EFP (2016-2022) and of the organizing committee of EuroPerio10 congress (2022). He is presently Chair of the EFP Congress Committee.

He has published over 90 scientific papers in international journals, which have received over 8000 citations, in the fields of periodontal pathogenesis, periodontal medicine, perio-orthodontics and Implantology.

He has received international awards for his research activity, including the “Hans-R. Mülhemann Research Prize” from the Swiss Society of Periodontology in 1997, the “Anthony A. Rizzo Award” from the International Association for Dental Research in 2004, and the “Clinical Research Award” from the American Academy of Periodontology in 2006.

## **Dr. Julia Naoumova** University of Gothenburg, Sweden

Julia Naoumova is associate professor at the Department of Orthodontics, Institute of Odontology at Sahlgrenska Academy, University of Gothenburg, and senior consultant orthodontist at the Specialist clinic of Orthodontics in Gothenburg, Sweden. Currently, she serves as the director of the postgraduate program in Orthodontics.

Dr Naoumova undertook her Bachelor's in dental surgery in 2005 and her Master's in dental surgery in 2007 from the University of Malmö, Sweden. She obtained her specialization in Orthodontics in 2010 in Gothenburg and took her PhD in 2014 from the University of Gothenburg.

She is active in teaching and training students as well as supervising several research projects. In her career as dental educator and orthodontist, she has published many peer-reviewed papers, received several prestigious awards including the Beni Solow prize for the best article in EJO in 2016 and has been honoured as an invited speaker at national and international congresses. Her main research interests are interceptive orthodontics, eruption disorders and orthodontic treatment of impacted teeth.

## **Dr. Ulla Pallesen** University of Copenhagen, Denmark

Ulla Pallesen has conducted her research and teaching carrier at the University of Copenhagen, Denmark for more than 45 years, now as Associate Professor at the Institute of Odontology, Section of Cariology and Endodontics. She has published up to 30 years clinical results of longevity of posterior resin restorations. As a clinician ethics and non-invasive restorative treatment have had her special interest. She has published more than 100 articles in peer-reviewed international and Scandinavian journals and textbooks, and she has given lectures all over the World. She is member of international and national dental societies and has during the years received several rewards.

# Invited Speakers

**Prof. Neny (Panagiota) Pervanidou**  
National and Kapodistrian University of Athens, Greece

Prof. Neny Pervanidou is a Professor of Developmental and Behavioral Pediatrics and Head of the Unit of Developmental and Behavioral Pediatrics, First Department of Pediatrics- School of Medicine, National and Kapodistrian University of Athens/ Athens, Greece. Prof. Pervanidou has published more than 100 peer-reviewed papers and has participated in several European and International Conferences. She is the President of the Hellenic Society of Developmental Pediatricians and she has organized the 12 Annual Meetings of Developmental and Behavioral Pediatrics in Greece. She is a Fulbright Scholar. Clinical and research interests: Autism Spectrum Disorder, ADHD, Pediatric Obesity, Pediatric Stress.

**Dr. Gunilla Pousette Lundgren**  
Karolinska Institutet, Sweden

Graduate from Umeå University with DDS 1982. Worked in general dental practice 1982-1998. Specialist diploma in pediatric dentistry 2002. Consultant in pediatric dentistry in Falun County of Dalarna, Sweden 2002-2016. PhD at Karolinska Institutet 2015. Assistant professor at Karolinska Institutet 2015-current. Particular interest in disturbances in enamel mineralization.

**Dr. Nina Sabel**  
University of Gothenburg, Sweden

- Senior consultant Pedodontics.
- Associate professor.
- Chairman of the Swedish Society of Paediatric Dentistry.

**Mr. Robert Schibbye**  
Karolinska Institutet, Sweden

Robert Schibbye is a clinical psychologist who has worked within paediatric dentistry for over 8 years. He is conducting research in cognitive behavioral therapy (CBT) for dental phobia.

# Invited Speakers

**Dr. Michal Sobczak**  
Private Practice, Warsaw, Poland

Dr. Sobczak is a paediatric dentist working in a private practice in Warsaw Poland, and is focused on paediatric patients and interdisciplinary treatment of patients after dental trauma. He is the founding member and President of Polish Academy of Paediatric Dentistry.

In 2016, he was awarded the title of Fellow of the International Association of Dental Traumatology (FIADT). Since 2020 he is part of the group of Directors of the International Association of Dental Traumatology, and from 2022 the Treasurer of the European Academy of Paediatric Dentistry (EAPD).

Dr Michał Sobczak is a member of Polish Academy of Paediatric Dentistry, Polish Dental Association, European Academy of Paediatric Dentistry, International Association of Paediatric Dentistry, International Association of Dental Traumatology, Polish Endodontic Society and European Society of Endodontology.

**Prof. Georgios Tsilingaridis**  
Karolinska Institutet, Sweden

Georgios Tsilingaridis graduated at the Karolinska Institute in 1997. In 2004, he completed his pediatric dentistry specialisation at the Eastman Institute in Stockholm, and in 2013 he defended his doctoral dissertation at the Karolinska Institute. He is currently associate professor, head of the division of Orthodontics and Pediatric Dentistry and vice dean at the department of Dental Medicine, Karolinska Institutet. He is also director of studies for all post-graduate education in the Region of Stockholm.

He is the past-president of the Swedish Society of Pediatric Dentistry and the past-president of the Swedish national group of directors for studies for postgraduate education. He is a board-member of the IADT and works in several committees in the IADT as well as in EAPD.

Georgios Tsilingaridis is also the author and co-author of several original scientific publications, co-author of Chapters 12, 16 and 17 in the Textbook and Color Atlas of Traumatic Injuries to the Teeth, 5th Edition, and co-author of the recently published IADT trauma guidelines.

**Prof. Svante Twetman**  
University of Copenhagen, Denmark

Svante Twetman is professor emeritus at the Faculty of Health and Medical Sciences, University of Copenhagen Denmark, and a licensed specialist in pediatric dentistry. The research covers the role of the oral biofilm in health and disease, risk assessment and caries prevention with fluorides and probiotic supplements in children and young adults. Throughout the years, he has combined clinical trials with explorative laboratory studies.

He has published over 275 peer-reviewed papers, contributed to several textbooks and received several international awards. He is currently chairing the advisory board of the Swedish Agency for Health Technology Assessment and Assessment of Social Services.

# Invited Speakers

**Prof. Chris Vernazza**  
Newcastle University, United Kingdom

Chris Vernazza is Head of School and Professor of Oral Health Services at Newcastle University's School of Dental Sciences. His research interest is the application of health economics in oral health and he has extensive experience of working at the interface of policy and research. He currently practises as a consultant paediatric dentist at Newcastle Dental Hospital and has teaching responsibilities across oral health undergraduate and postgraduate programmes. He is society editor for the International Journal of Paediatric Dentistry and a trustee of British Society of Paediatric Dentistry, Alliance for a Cavity Free Future and Oral and Dental Research Trust.

**Prof. Ferranti Wong**  
Queen Mary University of London, United Kingdom

Ferranti Wong is a Professor / Honorary Consultant of Paediatrics Dentistry and Department Head of Paediatric Dentistry in the Institute of Dentistry at Queen Mary University of London. He is president elect of the European Academy of Paediatric Dentistry since 2022 and a member of the Dental Council, Fellow of the Advisory Board in Dental Education, of the Royal College of Surgeon, Edinburgh since 2019.

His past career includes being Interim Dean/Director for Dentistry (QMUL), Head of centre for Oral Growth and Development (QMUL), Associate Dean of Postgraduate Dentistry (London Deanery), Chair of Specialty Advisory Board in Paediatric Dentistry (RCSEd), Chair of the Clinical Affair Committee and Constitutional Committee (EAPD), Member of Advisory Board of Interdisciplinary Research Centre in Biomedical Materials (COMSATS, Pakistan), and a member of Panel of Research Grant Committee (HKSAR). His research interests include dental materials, clinical trials and management of dental anomalies and trauma. He is also an external examiner (PhD, PG and UG) in various UK national and international institutions and membership examiner at RCSEd.

Ferranti Wong has also been invited as keynote speakers in international conferences including Europe, Malaysia and China.

**Prof. Egija Zaura**  
Academic Centre for Dentistry Amsterdam (ACTA),  
Netherlands

Egija Zaura is University Research Chair Professor of Oral Microbial Ecology at the VU (Vrije Universiteit) University Amsterdam and at the Department of Preventive Dentistry at Academic Centre for Dentistry Amsterdam (ACTA), the Netherlands. She obtained her Dental degree in 1995 at Karolinska Institute, Sweden. After graduation, Egija combined her work in the dental clinic in Riga with accomplishing a degree in General Dentistry at Riga Stradins University, Latvia, in 1997. In 2002 she acquired a PhD in Preventive Dentistry, cum laude, at Academic Centre for Dentistry Amsterdam (ACTA).

Her research topics span from biofilm models and clinical studies to advanced molecular technologies in oral microbial diagnostics and complex sequencing data analyses. Her current principal interests lay on oral microbial ecology at health and disease, and translating this fundamental knowledge to the clinical practice.

# Sponsored Symposia Speakers

## **Dr Teresa Sobral Costa DDS, MSc, PhD**

**Board member of European Board of Aligner Orthodontics (EBAO), Invisalign® Speaker, Portugal**

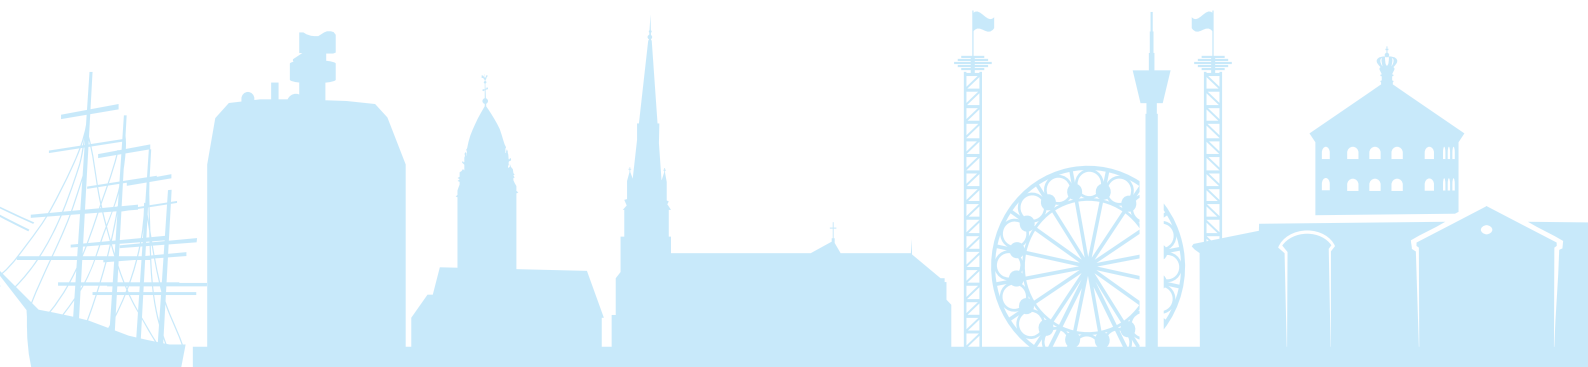

Graduated in Dentistry by ISCS-Sul in Lisbon, Portugal, Master in Science (MSc) in Dental Sciences – Orthodontics by KremsUniversity, Austria, Doctorate Degree (PhD) by Granada University, Spain, Teaching Assistant in Orthodontics department at Instituto Universitário Egas Moniz (IUEM), Invisalign Headmaster in Orthodontics Post Graduation at IUEM, Straight Wire Technique - Cervera - European Center of Orthodontics, Madrid, Spain, MBT Technique - Dr. Trevisi , Porto, Portugal, Lingual Orthodontics certification Incognito, Former Director of Malo Clinic Orthodontic Department - Lisbon, Portugal (2002-2011), Master Damon (Drs. Perera Grau and Garcia-Espejo) , Invisalign® certificated since 2011, Advanced Master in Invisible Orthodontics by Dr. Roman, COIP Master by Dr. Ivan Malagon and Dr. Diego Peydro, International Course of TMJ Disorders and Oro-facial Pain (Brasil & Portugal), Neuro-occlusal rehabilitation, Integrative Orthodontics and Aligners by Esmeralda Herrero.

## **Professor Rocío Lazo**

**Specialist Paediatric Dentist**

Specialist Paediatric Dentist (since 2002). Professor – Postdoctoral Pediatric Dentistry Program (20 years experience) at Cayetano Heredia University and Científica del Sur University. Special Smiles Clinical Director by Special Olympics Inc. Internship in Pediatric Dentistry Program University of California San Francisco. O3 Awards Best Research about Medical and Dentistry Science Fundación Instituto Hipolito Unanue-Perú. International Speaker on Biomimetic and Minimally Invasive Dentistry. Invited Lecture THE ROYAL ACADEMY OF MEDICINE AND RELATED SCIENCES OF GALICIA-SPAIN. Publication Co-Author 3 Pediatric Dentistry books and Papers (SDF, XYLITOL, BIOACTIVE MATERIALS).

# Scientific Programme

## Wednesday 12 June 2024

All times are in local Gothenburg, Sweden, Central European Time (CET)

📍 H2 HALL

09:00-10:50 **PRE-CONGRESS PROGRAM:**  
Dental erosion in children and adolescents - Part I  
Chairs: **Pernilla Lif Holgerson** (Sweden), **Sotiria Gizani** (Greece)

09:00-09:05 **Introduction and Welcome**  
**Pernilla Lif Holgerson** (Sweden), **Sotiria Gizani** (Greece)

09:05-10:00 **Erosive tooth wear in children and adolescents: Prevalence, diagnosis, risk factors, present and future trends in prevention**  
**Adrian Lussi** (Switzerland)

10:00-10:45 **Dental erosion in children and adolescents and a national implementation of a systematic clinical registration of dental erosion**  
**Helen Isaksson** (Sweden)

10:45-10:50 **Discussion**

10:50-11:10 **COFFEE BREAK**

📍 H2 HALL

11:10-12:15 **PRE-CONGRESS PROGRAM:**  
Dental erosion in children and adolescents - Part II  
Chairs: **Pernilla Lif Holgerson** (Sweden), **Sotiria Gizani** (Greece)

11:10-12:10 **Prevention of dental erosion – Current scientific strategy**  
**Robert Hill** (United Kingdom)

12:10-12:15 **Discussion**

📍 H1 HALL

10:50-11:10 **LUNCH & LEARN: DENTAL EROSION IN THE PRIMARY AND PERMANENT DENTITION**  
Ask the experts – case reports in small groups

📍 H2 HALL

13:30-14:45 **PRE-CONGRESS PROGRAM:**  
Dental erosion in children and adolescents - Part III  
Chairs: **Pernilla Lif Holgerson** (Sweden), **Sotiria Gizani** (Greece)

13:30-14:30 **Chronic disorders and dental erosion**  
**Peter Lingström** (Sweden)

14:30-14:45 **Discussion**

# Scientific Programme

## Wednesday 12 June 2024

All times are in local Gothenburg, Sweden, Central European Time (CET)

📍 R24 & R25 HALL

14:00-  
15:00

**Editorial Board Committee**

14:45-  
15:15

**COFFEE BREAK**

📍 H2 HALL

15:15-  
17:00

**PRE-CONGRESS PROGRAM:**

Dental erosion in children and adolescents - Part IV

Chairs: **Pernilla Lif Holgerson** (Sweden), **Sotiria Gizani** (Greece)

15:15-  
16:00

**Non-invasive treatment of erosive tooth wear in the permanent dentition**

**Ulla Pallesen** (Denmark)

16:00-  
17:00

**PANEL DISCUSSION**

**Adrian Lussi** (Switzerland), **Helen Isaksson** (Sweden), **Peter Lingström** (Sweden),  
**Robert Hill** (United Kingdom), **Ulla Pallesen** (Denmark)

📍 R24 & R25 HALL

16:00-  
17:30

**EAPD Councillor Meeting**

📍 MAIN CONGRESS HALL

18:00-  
19:00

**OPENING CEREMONY**

📍 EXHIBITION AREA & FOYER

19:00-  
20:00

**WELCOME RECEPTION**

# Scientific Programme

## Thursday 13 June 2024

📍 R25 HALL

09:00-10:00 **EAPD Nominations Committee**

📍 MAIN CONGRESS HALL

09:00-11:00 **EAPD MAIN SYMPOSIUM 1:**  
**Factors of concern when meeting with paediatric patient**  
Chair: **Dominique Declerck** (Belgium)

09:00-09:50 **Caring for children with neurodevelopmental disorders in the dental clinic**  
**My Blomqvist** (Finland)

09:50-10:40 **Child neglect and children's rights**  
**Gunilla Klingberg** (Sweden)

10:40-11:00 **Discussion**

📍 R25 HALL

10:00-11:00 **EAPD Credentials Committee**

11:00-11:30 **MORNING COFFEE BREAK AND EXHIBITION VIEWING**

📍 R24 HALL

11:30-12:30 **EAPD Education Committee**

📍 R25 HALL

11:30-12:30 **EAPD Clinical Affairs Committee**

📍 H1 HALL

11:10-12:15 **Oral Presentations Session O1**  
Chairs: **Dr. Eirini Stratigaki** (Switzerland), **Dr Janet Davies** (United Kingdom)

11:10-12:10 **O1.1** **Oral health evaluation of children and adolescents residing in residential care in Istanbul**  
**Narmin Huseynova** (Turkey)

11:40-11:50 **O1.2** **Evaluation of Oral Health-Related Quality of Life in Children with Early Childhood Caries using T-ECOHIS and T-SOHO-5**  
**Senem Selvi-Kuvvetli** (Turkey)

11:50-12:00 **O1.3** **Ethnic inequalities in child oral health behaviours among five- and eight-year-old children from England, Wales and Northern Ireland**  
**Faisal Bin Hayyan** (Saudi Arabia)

# Scientific Programme

Thursday 13 June 2024

- 12:00-12:10 **O1.4** Dental treatment provided under general anaesthetic in a high-caries risk sibling population  
Janet Davies (United Kingdom)
- 12:10 - 12:20 **O1.5** Patterns and risk factors for decay in temporary teeth-parents role in children's oral health  
Alexandrina Muntean (Romania)
- 12:20 - 12:30 **O1.6** Pharmacological management of pain in child dentistry - A survey study  
Rikard Roxner (Sweden)
- 12:30 - 12:40 **O1.7** Mandibular cortical bone and osteogenesis imperfecta: is there a direct correlation?  
Athanasia Tsiligianni (Greece)
- 12:40 - 12:50 **O1.8** Is Hall technique safe for temporomandibular joint (TMJ)?  
Venus Seyedorskuyi (Turkey)

📍 H2 HALL

11:30-13:00 **EAPD SATELLITE SYMPOSIUM 1:**  
**The use of digital technique in paediatric dentistry**  
Chair: Henrik Berlin (Sweden)

- 11:30-11:50 Oral health prevention and education using digitalization  
Sotiria Gizani (Greece)
- 11:50-12:20 Digital scanning in Paediatric Dentistry  
Esti Davidovich (Israel)
- 12:20-13:00 The Dental Artist behind Artificial Intelligence  
Reinhilde Jacobs (Belgium)

📍 H1 HALL

11:10-12:15 **Oral Presentations O2 Awards I**  
Chairs: Ferranti Wong (United Kingdom), Biniyam Wondimu (Sweden)

- 11:30 - 11:40 **O2.1** A comprehensive analysis of chair time for patients with severe Molar-Incisor Hypomineralization (MIH) in Sweden  
Adnan Hajdarevic (Sweden)
- 11:40 - 11:50 **O2.2** A large cohort study of the prophylactic management of premolars with Dens Evaginatus  
Joe Yin Gan (Singapore)
- 11:50 - 12:00 **O2.3** Remineralizing potential of SDF and a novel green-synthesized Nano-silver fluoride on incipient enamel lesions – in-vitro study  
Antonia Palankalieva (Bulgaria)
- 12:00 - 12:10 **O2.4** Investigation of the root canal morphology of primary molars by using CBCT: an in vitro study  
Sevgi Yasar (Turkey)
- 12:10 - 12:20 **O2.5** Antibacterial activity and cytotoxicity of tricalcium silicate cement with different antibacterial additives  
Reda Banon (Belgium)

# Scientific Programme

Thursday 13 June 2024

12:20 - 12:30 **O2.6** Developmental changes in the determinants of oral function  
Linda Munirji (Sweden)

12:30 - 12:40 **O2.7** Pulpal response of Hypomineralised first permanent molars  
Violetta Erzsébet Szabó (Hungary)

12:40 - 12:50 **O2.8** Dental caries experience of oncology patients in a tertiary care hospital: a five-year review  
Marwah Almarwan (Saudi Arabia)

12:50 - 13:00 **O2.9** Effects of virtual reality and laser biostimulation on pain perception and dental anxiety in children  
Mehri Safarli (Turkey)

📍 G2 HALL A

11:30-13:00 **Poster Discussion Session O1**  
Chairs: Elias Berdousis (Greece), Arina Vinereanu (Romania)

11:30-11:35 **OPD 1.01** Teachers' perspective and behaviour related to oral health education in schools  
Roxana Ilici (Romania)

11:35-11:40 **OPD 1.02** Management of black stain in a 10-year-old patient with Thrombocytopaenic Purpura: A case report  
Kristina Tabutova (Bulgaria)

11:40-11:45 **OPD 1.03** Children with ADHD in Dental Care – Clinical Experiences of Swedish Dentists  
Emma Stridh (Sweden)

11:45-11:50 **OPD 1.04** Effects of dental sound insulation system on stress reduction and dental fear in children  
Sang-Kyu Han (Republic of Korea)

11:50-11:55 **OPD 1.05** Sensors–tools for detecting young patient's stress during a dental invasive versus a non-invasive dental treatment. A pilot study.  
Claudia Jaldin (Sweden)

11:55-12:00 **OPD 1.06** Association between "Anxiety Scale for Children with Autism Spectrum Disorder" and behavior during dental visits.  
Manon Van Der Wal (Netherlands)

12:00-12:05 **OPD 1.07** Avulsion of tooth 12  
Anja Andrejas (Slovenia)

12:05-12:10 **OPD 1.08** Fragment reattachment as a treatment method for crown fractured teeth; population of patients and characteristics of treated teeth  
Jasna Ferko (Slovenia)

12:10-12:15 **OPD 1.09** Crown fracture of unerupted permanent incisor. A rare case report with 5 years follow up  
Ioannis Kotsanos (Greece)

12:15 - 12:20 **OPD 1.10** The treatment of complicated crown fracture and complicated crown-root fracture on first upper permanent incisors: Case report  
Tadeja Ris Koler (Slovenia)

# Scientific Programme

Thursday 13 June 2024

12:20 - 12:25 **OPD 1.11** Knowledge of traumatic dental injuries and management among parents in Saudi Arabia  
Manal Almalik (Saudi Arabia)

12:25 - 12:30 **OPD 1.12** Canine red alert: Avulsion of a permanent canine and management of a complex multi-tooth trauma  
Erin Giles (United Kingdom)

12:30 - 12:35 **OPD 1.13** Spontaneous eruption of an intrusively luxated permanent incisor following orthodontic expansion: A case report.  
Mohamed Halane (Australia)

12:30 - 12:35 **OPD 1.14** Complexities in the management of sub-gingival crown fractures- illustrated through cases  
Hugh McGrory (Ireland)

12:40 - 12:45 **OPD 1.15** Clinical management of avulsed permanent incisors with open apex under general anesthesia: A case report  
Hatice Miray Sahin (Turkey)

📍 G2 HALL B

11:30-13:00 **Poster Discussion Session O2**  
Chairs: Tania Vanhée (Belgium), Clarissa Bonifacio (The Netherlands),  
Romana Koberova (Czech Republic)

11:30 - 11:35 **OPD 2.01** Evaluation of the effects of untreated caries on daily performance in 11-12-year-old children  
Seray Sahin (Turkey)

11:35 - 11:40 **OPD 2.02** Risk of severe early childhood caries over time in low-income preschoolers  
Hsiao-Yun Hu (Taiwan)

11:40 - 11:45 **OPD 2.03** Prevalence and severity of molar incisor hypomineralisation (MIH) among 8-10-year-old German schoolchildren from northern Bavaria  
Ramy Gaballah (Germany)

11:45 - 11:50 **OPD 2.04** Prevalence of dental caries among 8-10-year-old schoolchildren in southern Germany - a cross-sectional study  
Stefanie Amend (Germany)

11:50 - 11:55 **OPD 2.05** Caries trends of 12-year-old schoolchildren in permanent dentition in Taiwan- from 1983 to 2020  
Dan-Yin Hsu (Germany)

11:55 - 12:00 **OPD 2.06** Dietary risk factors for dental erosion among 11-13-year-old children from Plovdiv, Bulgaria  
Tanya Nihtyanova (Bulgaria)

12:00 - 12:05 **OPD 2.07** Immigration is linked to preschool children seeking hospital care for dental caries  
Therese Kvist (Sweden)

12:05 - 12:10 **OPD 2.08** Segmental odontomaxillary dysplasia: A rare diagnosis in a 4-year-old boy  
Rute Rosendo (Sweden)

# Scientific Programme

Thursday 13 June 2024

- 14:10 - 14:20 **O4.2** Conscious sedation efficacy of 0.3 and 0.5 mg/kg oral midazolam for 3-6 year old uncooperative children undergoing dental treatment: A clinical trial  
Leila Hassanbeygi (Islamic Republic of Iran)
- 14:20 - 14:30 **O4.3** Rare case of stage IV Neuroblastoma with metastatic spread to the mandible in a 15-month-old: A case report  
Anna Kana (United Kingdom)
- 14:30 - 14:40 **O4.4** Amelogenesis Imperfecta type-I hypoplastic type treatment approach in a patient: A case report  
Neslihan Atmaca (Turkey)
- 14:40 - 14:50 **O4.5** An unusual presentation of dental eruption cysts in a baby lead to investigation for and probable diagnosis of a bleeding disorder  
Sadhbh O'rourke (Ireland)
- 14:50 - 15:00 **O4.6** Juvenile Psammomatoid Ossifying Fibroma of the mandible mimicking odontogenic cyst in a child  
Meltem Ekinici (Turkey)
- 15:00 - 15:10 **O4.7** Multiple compound odontomas and supernumerary teeth in a 14-year old with a complex medical background of Mowat-Wilson Syndrome  
Damien Smith (Ireland)
- 15:10 - 15:20 **O4.8** Treatment of dentigerous cysts in childhood with different approaches-a case series  
Selin Saygili (Turkey)
- 15:20 - 15:30 **O4.9** Oral findings in an adolescent with Bronchio-Oculo-Facial Syndrome (BOFS): Case report  
Ceren Kaplan (Turkey)

📍 G2 HALL A

- 14:00 - 15:30 **Poster Discussion Session O3**  
Chairs: Monty Duggal (Qatar), Sivaprakash Rajasekharan (Belgium), Agneta Robertson (Sweden)
- 14:00 - 14:05 **OPD 3.01** Sequelae in the permanent dentition after traumatic dental injury in the primary dentition  
Anne-Marie Folmer (Denmark)
- 14:05 - 14:10 **OPD 3.02** Down the hatch: Multidisciplinary management of accidental tooth aspiration  
Simran Kumar (United Kingdom)
- 14:10 - 14:15 **OPD 3.03** The management of a complicated crown fracture with delayed presentation in a dentally anxious paediatric patient  
Nabeela Caratela (United Kingdom)
- 14:15 - 14:20 **OPD 3.04** Potential pulp revascularization following lateral luxation injury in mature permanent teeth in young adults  
Josephine Solgaard Henriksen (Denmark)

# Scientific Programme

Thursday 13 June 2024

15:30-  
16:00

AFTERNOON COFFEE BREAK AND EXHIBITION VIEWING

📍 H1 HALL

16:00-  
17:30

## Oral Presentations Session O5

Chair: Maria Anderson (Sweden), Norbert Kraemer (Germany)

16:00 -  
16:10

O5.1

**Excessive wear of stainless steel crowns in primary molars, a retrospective study**  
Marjolein Verhelst - Van Ulsen (Netherlands)

16:10 -  
16:20

O5.2

**Effect of the addition of calcium phosphate on the physical and biological properties of tricalcium silicate based cements**  
Sivaprakash Rajasekharan (Belgium)

16:30 -  
16:40

O5.4

**'It looks like you're eating a golf ball!' - A case report on an unexplained mandibular swelling.**  
Amy Carroll (United Kingdom)

16:40 -  
16:50

O5.5

**Oral disease burden in children scheduled for hematopoietic stem cell transplantation - a multicenter study**  
Göran Dahlöf (Sweden)

16:50 -  
17:00

O5.6

**"It's like being chained up"- Oral mucositis experience in children with cancer, parents and healthcare teams, a qualitative study**  
Claudia Heggie (United Kingdom)

17:00 -  
17:10

O5.7

**Silent Sinus syndrome - A Rare paediatric condition diagnosed in the orthodontic department**  
Fiona Lourenco (United Kingdom)

17:10 -  
17:20

O5.8

**Oral candidiasis in children. Case series; different clinical presentation and management**  
Dania Siddik (United Kingdom)

📍 H2 HALL

16:00-  
17:30

## EAPD SATELLITE SYMPOSIUM 3:

### Dental trauma

Chair: Nick A. Lygidakis (Greece)

16:00-  
16:20

**Treating traumatic dental injuries in the primary dentition with the child in focus**  
Georgios Tsilingaridis (Sweden)

16:20-  
16:40

**Predicting Treatment Outcomes in Traumatic Crown Fractures of Permanent Teeth**  
Michał Sobczak (Poland)

16:40-  
17:00

**Luxation injuries in the permanent dentition**  
Monty Duggal (Qatar)

17:00-  
17:30

**Discussion**

# Scientific Programme

Thursday 13 June 2024

- 17:10 - 17:20 **O6.8** **How amelogenesis and dentinogenesis imperfecta psychosocially affect adolescents?**  
Emmanuelle Noirrit-Esclassan (France)
- 17:20 - 17:30 **O6.9** **Audit on the dental management of children with Osteogenesis Imperfecta (OI) at 4 specialised centres in the UK**  
Jasmine May Cachia Mintooff (United Kingdom)

📍 R25 HALL

- 16:00 - 17:30 **Oral Presentations Session O7**  
Chair: Paddy Fleming (Ireland), Eirini Stratigaki (Switzerland)
- 16:00 - 16:10 **O7.1** **Is YouTube™ a reliable source of information about sports mouthguards?: A cross-sectional study**  
Ilke Gezer (Turkey)
- 16:10 - 16:20 **O7.2** **“Spontaneous Revascularisation” following dental intrusion and external infection-related resorption in a young permanent tooth**  
Bing Liang Tan (Singapore)
- 16:20 - 16:30 **O7.3** **Are We Meeting IADT Guidance for The Management of Complicated and Uncomplicated Crown Fractures**  
Soumiah Alkandari (United Kingdom)
- 16:30 - 16:40 **O7.4** **How long is it sufficient to wait for intrusive immature teeth? Four case reports**  
Enes Mustafa Aşar (Turkey)
- 16:40 - 16:50 **O7.5** **Improving uptake of stainless steel crowns using Hall technique in deciduous molars**  
Thanushika Pooranampillai (United Kingdom)
- 16:50 - 17:00 **O7.6** **A case of infective endocarditis from a dental Origin in a healthy child**  
Harriet Mcquillan (United Kingdom)
- 17:00 - 17:10 **O7.7** **Oral Health-Related Quality of Life in Children with and without Asthma**  
Elif Gul Aydin (Turkey)
- 17:10 - 17:20 **O7.8** **Factors affecting UK Paediatric Dentists’ treatment decisions for carious primary second molars under GA: a cross-sectional study.**  
Bushra Almohammed (United Kingdom)
- 17:20 - 17:30 **O7.9** **Acceptance of teledentistry for treatment planning among specialists in paediatric dentistry: A feasibility & acceptability study**  
Sarah McKernon (United Kingdom)

📍 H2 HALL

- 17:30 - 19:00 **EAPD GENERAL ASSEMBLY**

# Scientific Programme

Friday 14 June 2024

📍 MAIN CONGRESS HALL

09:30-11:00 **EADD MAIN SYMPOSIUM 2: Dental anomalies**  
Chair: **Ferranti Wong** (United Kingdom)

09:30-10:10 **Dental anomalies: diagnostic clues for personalized oral medicine**  
**Agnes Bloch-Zupan** (France)

10:10-10:50 **Long term restorative management of malformed teeth**  
**Gunilla Pousette Lundgren** (Sweden)

10:50-11:00 **Discussion**

11:00-11:30 **MORNING COFFEE BREAK AND EXHIBITION VIEWING**

📍 H1 HALL

11:30-13:00 **Oral Presentations Session O8**  
Chair: **Emmanuelle Noirrit-Esclassan** (France), **Huei Jinn Tong** (Singapore)

11:30 - 11:40 **O8.1** **Oral health coaches' effect on caries recurrence after dental treatment under general anesthesia: A randomized controlled trial**  
**Ida Brannemo** (Sweden)

11:40 - 11:50 **O8.2** **Oral health among children participating in an extended home-visiting program in Stockholm, Sweden**  
**Jeanette Norman** (Sweden)

11:50 - 12:00 **O8.3** **In vitro investigation of the effects of light-cured varnishes on erosive lesions**  
**Ebru Imren** (Turkey)

12:00 - 12:10 **O8.4** **Mobile app for cariogenic dietary assessment in 2 to 6 years old children**  
**Matina Angelopoulou** (Greece)

12:10 - 12:20 **O8.5** **Patient-rated Outcome and Experience Measure (POEM) among patients attending a paediatric dental practice in London; UK**  
**Dania Siddik** (United Kingdom)

12:20 - 12:30 **O8.6** **An in vitro study of the preventive action of agents against erosive tooth wear.**  
**Konstantina Chatzidimitriou** (Greece)

12:30 - 12:40 **O8.7** **Interventions to reduce sports drinks consumption in children and adolescents for oral health: a systematic review**  
**Gareth Wassall** (United Kingdom)

12:40 - 12:50 **O8.8** **Molar-incisor hypomineralization affects oral health-related quality of life in 8–9-year-old children**  
**Sadaf Haque Afzal** (Norway)

# Scientific Programme

Friday 14 June 2024

📍 H2 HALL

11:30-  
13:00

## EADD SATELLITE SYMPOSIUM 4:

**Expecting mother's oral health impacts on child's oral health**

Chair: Sotiria Gizani (Greece)

11:30-  
12:05

**Oral microbiome and pregnancy**

**Egija Zaura** (the Netherlands)

12:05-  
12:40

**Periodontal disease and Pregnancy: impact on pregnancy outcomes and postnatal morbidity**

**Phoebus Madianos** (Greece)

12:40-  
13:00

**Discussion**

📍 G1 HALL

11:30-13:00

## Oral Presentations Session O9

Chairs: Anne Hultgren Talvilahti (Sweden), Nick A. Lygidakis (Greece)

11:30 -  
11:40

**O9.1**

**Creating health equity through a new service - The Eastman Dental Hospital neurodiverse dental general anaesthesia list**

**David Drysdale** (United Kingdom)

11:40-  
11:50

**O9.2**

**Oral features and salivary flow rate in childhood cancer survivors: cross sectional study.**

**Rossella Ninivaggi** (Italy)

11:50 -  
12:00

**O9.3**

**The dental health and experiences of children with Congenital Heart Disease**

**Yasamin Yousefi** (United Kingdom)

12:00 -  
12:10

**O9.4**

**Do intra-operative photographs under general anaesthetics on behaviourally challenging patients improve parental understanding?**

**Vikash Patel** (United Kingdom)

12:10 -  
12:20

**O9.5**

**Fibrous dysplasia: A multi-disciplinary approach**

**Claudia Batista** (United Kingdom)

12:20 -  
12:30

**O9.6**

**Dental case report with long-term follow-up of a boy with X Linked Hypophosphatemia**

**Agnes Lackner** (Austria)

12:30 -  
12:40

**O9.7**

**Dental implications of Papillon-Lefèvre syndrome: A case report**

**Molly McCleary** (United Kingdom)

12:40 -  
12:50

**O9.8**

**Unravelling the genetic basis of Dentinogenesis Imperfecta**

**Maleeha Gilani** (Australia)

📍 G2 HALL

11:30-13:00

## Poster Discussion Session O8

Chairs: Helen Isaksson (Sweden), Tove Irene Wigen (Norway)

11:30-  
11:35

**OPD  
8.01**

**Prevalence and risk indicators of severe early childhood caries of 5 year-old immigrant children residing in Greece:**

**Konstantina Theodorou** (Greece)

### ATM Facilities/Banks

The Swedish Exhibition & Congress Center in Gothia Towers operates as a cashless venue, extending this policy to encompass both the hotel and its facilities. An ATM is conveniently located just outside the venue, however, there are no banks situated in the vicinity of Gothia Towers. Additionally, many restaurants and stores in Sweden have adopted a cashless policy, preferring card payments.

We recommend using cards for transactions during your visit to Gothia Towers and its surrounding areas.

## C

### CERTIFICATE OF ATTENDANCE

A certificate of attendance will be sent to all registered check in participants after the Congress via email.

### CONGRESS VENUE

Swedish Exhibition & Congress Centre and Gothia Towers  
Massans Gata/Korsvagen, 41294 Gothenburg, Sweden  
w: <https://en.svenskamassan.se/>

# General Information A-Z

## ABOUT THE VENUE

The Swedish Exhibition & Congress Centre and Gothia Towers together form one of Europe's largest fully integrated venues. Centrally located on Korsvägen, with easy access to rail and tram stations and the airport.

The venue offers a complete package, from hotel accommodation, shops, a theatre, a spa and restaurants to exhibition halls and various meeting arenas. All under one roof and with a bustling city just beyond the entrance.

The Swedish Exhibition & Congress Centre and Gothia Towers offers a conference space for a total of 8,800 people in 60 rooms. Gothia Towers has conference venues and meeting rooms for groups ranging in size from 2 to 8,800, with the main spaces the large Hall C and the Congress Hall.

## HOW TO REACH THE VENUE

Gothia Towers is located near the Korsvägen stop. Korsvägen is a hub for public transport in Gothenburg, and numerous tram and bus lines stop there. Korsvägen is also the first stop for the airport bus coming from Göteborg Landvetter airport.

For timetables and further information, please visit the Gothenburg region's public transport website Västtrafik.

The Korsvägen station stop is about 100 metres from the Gothia Towers hotel entrance.

**Arriving by train:** From Gothenburg Central Station take tram 2 (for Krokslätt) or tram 4 (for Mölndal). From Brunnsparken you can also take tram 5 (for Östra Sjukhuset). The trams stop on Korsvägen right opposite the hotel. You can find timetables for these trams on the Västtrafik website.

**Arriving by air:** The Flygbussarna airport coaches run to and from Landvetter airport (20 min. journey) and stop at Korsvägen/the Swedish Exhibition & Congress Centre, right opposite the hotel. This is the first and last stop when travelling from and to the airport.

**Arriving by car:** E6/E20 (from the north) and road 45 (from Karlstad): On arriving in Gothenburg, turn off when you see the sign "Mässan Scandinavium Liseberg". Take the first exit on the left, then turn right on to Örgrytevägen and then take the next right exit for the hotel.

**E6/E20 (from the south) and road 40 (from Borås):** On arriving in Gothenburg, turn off when you see the sign "Mässan Scandinavium Liseberg". Take the second exit on the right for the hotel.

### IMPORTANT NOTE

*Gothia Towers operates as a cashless venue, extending this policy to encompass both the hotel and its facilities. This approach aligns with the prevailing trend in Sweden, where a majority of restaurants and shops have adopted cashless transactions.*

## C

### CLOAKROOM

A Cloakroom will be operating at the Congress Venue in close proximity with the Registration Desk. Delegates' items (such as coats, poster cases, etc.) can be left at the Cloakroom only on a daily basis and during Congress operating hours.

### CURRENCY/ EXCHANGE

The Swedish currency is Swedish Korona.

# General Information A-Z

## E

### ELECTRICITY

The electrical power supply voltage in Sweden is 230 volts (US/Canada:110-120volts).

### EXHIBITION OPERATING HOURS

The exhibition will run during the following hours, On Site Exhibition

Thursday, 13 June, 2024 | 08:30 – 17:30

Friday, 14 June, 2024 | 09:00 – 19:30

Saturday, 15 June 2024 | 08:30 – 15:00

### EVALUATION

To continually improve and provide delegates with beneficial experiences, we will ask you to complete an evaluation form by sending you a link after the end of the Congress. This information is very important to us, and we appreciate your response in advance!

## F

### FACILITIES FOR PERSONS WITH IMPAIRED MOBILITY

Congress Venue premises have been specifically designed to support the needs of persons with impaired mobility. All Congress areas are equipped with facilities that allow easy access, whilst specially designed restrooms, trolley bars and ramps are available in all levels.

### FOOD & BEVERAGES

Coffee and Lunch during official breaks is included in the delegate registration fee and will be served in designated catering stations in all Congress areas.

## I

### INTERNET ACCESS

Free WiFi access will be available in all Congress areas throughout the duration of the EAPD 2024 Congress. **Network: Gothia Towers**

## L

### LANGUAGE

English is the official language of the Congress.

### LIABILITY & INSURANCE

Registration fees do not include participant's insurance against personal accidents, sickness and cancellation by any party, theft, loss or damage to personal possessions. Participants are requested to make their own arrangements with respect to health and travel insurance. EAPD and the Congress Organizer CONVIN S.A. accept no liability.

### LOST & FOUND

A lost and found service is available at the Registrations Desk during the Congress hours.

## P

### PARKING

During your stay at the Swedish Exhibition & Congress Center in Gothia Towers, you can choose from a number of convenient parking options, such as parking in the hotel's own garage or in the nearby Focus car park. All options are extremely popular, so to guarantee a parking space for your car, it is advisable to pre-book. For more information about the car parking options, please visit [HERE](#).

### PHOTOS

Photos of sessions and Congress areas might be taken during the EAPD 2024 Congress. Attendees are advised to contact Registration desk, for any issue or objection with this respect.

## R

### REGISTRATION BADGES

Registration badges will be used during the EAPD 2024 Congress. Participants will receive their badges upon check-in at the Registrations Desk. For identification purposes and admission to scientific sessions, participants are requested to wear their badges at all times. Admission to Congress areas will not be allowed without badge identification.

### REGISTRATION & HOSPITALITY DESK

Operating hours:

|                          |               |
|--------------------------|---------------|
| Wednesday, 12 June, 2024 | 08:30 – 17:30 |
| Thursday, 13 June, 2024  | 08:00 – 17:30 |
| Friday, 14 June, 2024    | 09:00 – 18:00 |
| Saturday, 15 June, 2024  | 08:30 - 15:00 |

## S

### SELF CHECK-IN STATIONS

Congress delegates who do not have outstanding payment may collect their name badges through the Self Check-in stations, located near the Registration Area, thus avoiding queues for badge pick up.

## T

### TIME

Sweden follows UTC/GMT +2 hours during the spring period.

If you are uncertain regarding your time difference, you may visit either one of the below links to calculate the time difference.

### WEATHER

The average temperature in Gothenburg in June for a typical day ranges from a high of 18°C (64°F) to a low of 12°C (53°F). Some would describe it as mildly cool with a gentle breeze. For comparison, the hottest month in Gothenburg, July, has days with highs of 20°C (68°F) and lows of 14°C (57°F). There might also be a small chance of rain. With that in mind, most people would dress in something moderately warm like a sweater. [See more in wanderlog](#)

# About the Host City

Gothenburg, Sweden's vibrant coastal gem that promises an unforgettable adventure. With its captivating blend of old-world charm and modern innovation, Gothenburg offers an array of experiences for every visitor. Explore picturesque canals, wander through cobbled streets lined with charming cafes, and immerse yourself in the city's rich history and culture. From the iconic Liseberg amusement park to the stunning archipelago, in just a short ferry ride away, there's no shortage of activities to fill your days with joy and wonder. Embrace the warmth of the locals' hospitality and savor the Scandinavian cuisine. Whether you're an art enthusiast or nature lover, Gothenburg has something extraordinary waiting for you. Seize this opportunity to attend the 17th EAPD Congress of Paediatric Dentistry while creating long lasting memories.

**1 Liseberg:** Liseberg is one of Scandinavia's largest amusement parks, offering a thrilling mix of roller coasters, rides, and attractions for visitors of all ages. It also hosts concerts, shows, and a beautiful Christmas market during the holiday season.

**2 Universeum:** Universeum is a fascinating science center and aquarium that provides interactive exhibitions on topics ranging from space and technology to the world's ecosystems. It's a great place for families and curious minds to explore and learn.

**3 Gothenburg Archipelago:** Just off the coast of Gothenburg lies a stunning archipelago comprising numerous islands, perfect for day trips or longer getaways. With picturesque landscapes, charming fishing villages, and opportunities for boating, fishing, and swimming, the archipelago offers a serene escape from city life.

**4 Haga District:** Haga is a charming neighborhood known for its well-preserved wooden houses, cobblestone streets, and cozy cafes. It's an excellent place to stroll around, enjoy a fika (Swedish coffee break), and explore unique boutiques and antique shops.

**5 Gothenburg Museum of Art:** This art museum houses an impressive collection of Nordic and international art, including works by renowned artists such as Rembrandt, Picasso, and Monet. The museum also hosts temporary exhibitions and offers a glimpse into the vibrant art scene of Gothenburg.

**6 Slottsskogen:** Slottsskogen is a beautiful city park where locals and visitors can enjoy nature, have picnics, and relax. It's home to a small zoo, including popular attractions like the penguins and seals, as well as extensive walking trails and playgrounds.

**7 Avenyn:** Avenyn is Gothenburg's main boulevard, lined with restaurants, cafes, shops, and entertainment venues. It's a vibrant street that comes alive at night, offering a lively atmosphere for dining, nightlife, and cultural experiences.

These are just a few highlights of what Gothenburg has to offer. The city's rich cultural heritage, beautiful parks, vibrant culinary scene, and welcoming atmosphere make it a fantastic destination for visitors.

# Company Profiles

Align Technology is a global medical device company with industry-leading products including the Invisalign® system, the most advanced clear aligner system in the world, and iTero™ intraoral scanners and services for orthodontic and restorative dentistry and exocad™ CAD/CAM software. Align Technology pioneered the invisible orthodontics market with the introduction of the Invisalign system by combining digital treatment planning and mass-customization, with plastic shape-engineering based on biomechanical principles. Today, we've helped treat over 17 million patients with the Invisalign system and have manufactured over one billion unique aligners. Align is driving the evolution in digital dentistry with the iTero intraoral scanner and exocad CAD/CAM software – modernizing today's practices by enabling enhanced digital orthodontic and restorative workflows to improve patient outcomes and practice efficiencies.

## Forging new paths towards better dentistry

Septodont is a world leader in the development, manufacturing and distribution of innovative dental products. With an entrepreneurial spirit and ambitious growth goals, we leverage emerging technology to turn novel ideas into innovative solutions. Septodont combines deep pharma expertise, vast manufacturing capabilities and a broad distribution network to deliver the safest, highest-quality dental products worldwide.

We envision a future where every tooth is saved, every treatment is painless, and every dental professional is equipped for success. We strive to make a positive impact everywhere we operate, achieving growth while maintaining sustainable, responsible and ethical practices. Our products portfolio includes:

- Pain Management
- Dentin Restoration
- Endodontics
- Surgery
- Periodontology
- Impression
