Welcome messages

Prof. Ferranti Wong,
EAPD President

Dear Colleagues and Friends of EAPD,

It is with great honour and enthusiasm that I welcome you to the 18th Congress of the European Academy of Paediatric Dentistry 2026, set in the vibrant city of Liverpool. This esteemed event brings together leading experts, researchers, and dedicated professionals committed to advancing the oral health and well-being of children.

Liverpool, a city celebrated for its rich history and cultural heritage, provides an inspiring setting for our congress. As the birthplace of The Beatles, Liverpool is not only a hub of musical innovation but also a city that fosters creativity and progress. We encourage you to explore both the scientific and cultural experiences that this dynamic location has to offer.

Throughout the congress, we will delve into the latest advancements in paediatric dental care. With distinguished keynote speakers, insightful presentations from young members, and thought-provoking panel discussions, this congress aims to inspire new approaches and foster collaborations that will shape the future of paediatric dentistry. Beyond the scientific sessions, we invite you to take full advantage of the many networking opportunities available.

This congress serves not only as a platform for professional growth but also as a space to build lasting connections, exchange knowledge, and drive the field of paediatric dentistry forward. Your dedication and participation are what make this event a success.

Once again, I warmly welcome you to Liverpool, and I look forward to an engaging, productive, and inspiring meeting.

Prof. Sontos Albadri,
Chair of the LOC

On behalf of the Local Organising Committee,

it is with great pleasure that I welcome you to Liverpool for the 18th Congress of the European Academy of Paediatric Dentistry in July 2026.

Liverpool, a city full of history and vibrant culture, is the perfect backdrop for this gathering. As you engage in the cutting-edge scientific program, we hope you also take time to explore our city. Liverpool's rich heritage, from its iconic waterfront to the echoes of The Beatles, creates a unique and inspiring atmosphere. We encourage you to immerse yourselves in the city's musical legacy and passionate football culture.

We will have an excellent scientific programme focusing on working together to address complex clinical situation. We are fortunate to have the world-renowned Alder Hey Children's Hospital and the esteemed University of Liverpool, both at the forefront of paediatric healthcare and research. Our team has worked tirelessly to ensure a stimulating and memorable experience.

We hope this congress will foster collaboration, spark innovation, and strengthen the bonds within our paediatric dentistry community. Welcome to Liverpool! We look forward to a productive and enjoyable congress.

Organizers

European Academy of Paediatric Dentistry (EAPD)

The European Academy of Paediatric Dentistry (EAPD) is a prestigious organization dedicated to the advancement and promotion of oral health care for children and adolescents throughout Europe. With a mission to enhance the knowledge, skills, and expertise of dental professionals in the field of pediatric dentistry, the EAPD plays a vital role in ensuring optimal oral health outcomes for young patients.

Through its collaborative efforts, the EAPD fosters the exchange of ideas, research, and best practices among its members, including dentists, researchers, academicians, and other oral health professionals. By providing a platform for knowledge sharing and education, the EAPD strives to improve the quality of pediatric dental care, to advocate for the oral health needs of children, as well as to contribute to the overall well-being and development of young individuals across Europe.

British Society of Paediatric Dentistry

The British Society of Paediatric Dentistry (BSPD) is the national society dedicated to improving the oral health of children from birth to 16.

With more than 600 members who are committed to raising standards in children's oral health through specialist practice, teaching, research, guidance and advice, both for the profession and parents. The majority of BSPD members are consultants and specialists working in hospitals and community clinics or academics and researchers in universities and dental schools and BSPD now has a growing cohort of members in general dental practice, both GDPs and dental care professionals. BSPD has members around the world and also welcome non dental care professionals with an interest in children's oral health.

Invited Speakers

Prof. Karel Allegaert
Ku Leuven, Belgium

Karel Allegaert is a paediatrician (1999), neonatologist (2000) and clinical pharmacologist (2003), and is currently appointed at KU Leuven, departments of Development and Regeneration, and Pharmaceutical and Pharmacological Sciences as full professor, with an additional appointment as senior consultant (10%) at Erasmus MC, Rotterdam (Hospital Pharmacy). His research has its focus perinatal and pediatric clinical pharmacology and its co-variables (maturational, non-maturational, pharmacogenetics, disease-related). He coordinates the clinical pharmacology for the bachelor in dentistry at KU Leuven

Dr. Kristofer Andersson
Folktandvården Västra Götaland, Sweden

Kristofer Andersson, DDS, PhD, is a specialist in pediatric dentistry. He works at the Clinic of Pedodontics, Public Dental Service, Region Västra Götaland, Gothenburg, Sweden and has a position as adjunct senior lecturer at the Department of Pediatric Dentistry, Sahlgrenska Academy, University of Gothenburg. Kristofer is also affiliated with the Department of Orthodontics and Pediatric Dentistry at Karolinska Institutet, Stockholm and Mun-H-Center - National Orofacial Resource Centre for Rare Disorders in Gothenburg. His areas of special interest are genetics and oral health in rare diseases, tooth developmental disturbances and management of dental fear and anxiety.

Prof. Avijit Banerjee
Faculty of Dentistry, Oral & Craniofacial Sciences, King's College London, United Kingdom

Avijit is Professor of Cariology & Operative Dentistry, Faculty of Dentistry, Oral & Craniofacial Sciences (FoDOCS), King's College London, UK and Hon. Consultant, Restorative Dentistry, Guy's & St. Thomas' Hospitals Foundation Trust, London, UK. He currently holds three international honorary chairs as well as being a member of the Board of Trustees of the UK Oral & Dental Research Trust (ODRT).

He holds the following senior national executive professional positions in the UK:

- Honorary Consultant Advisor, Office of the Chief Dental Officer, England (2020-),
- President, British Society of Oral & Dental Research (BSODR; 2025 – 2027),
- Chair, Faculty of Dentists, College of General Dentistry (CGDent; 2024 – 27),
- NIHR Research Delivery Network (RDN) Oral & Dental Speciality Deputy National Lead, National Industry Lead, South London RRDN Lead (2021 –).
- Editor-in-Chief, British Dental Journal Portfolio (BDA & Springer Nature, 2024 –)

In 2022, he was awarded the prestigious William H Bowen Caries Research Distinguished Scientist Award from the International Association of Dental Research (IADR) in recognition of his global scientific and clinical research impact in cariology & minimally invasive operative dentistry over the last 25 yrs.

In 2024, the UK British Dental Association bestowed upon him the John Tomes Medal, one of its most esteemed professional accolades, to honour his clinical academic and scientific services and achievements to the profession and the BDA.

In his discipline of cariology & operative dentistry (minimum intervention oral care (MIOC) & minimally invasive dentistry (MID), biomaterials science, clinical trials and national / global policy), he has authored 5 internationally acclaimed textbooks (including "Pickard's Guide" and now its successor, "A Clinical Guide to Advanced Minimum Intervention Restorative Dentistry", Elsevier 2024), 13 book chapters, >180 peer-reviewed papers (H index 56, citations: 11,325 to date) and has supervised 50 doctorates & masters' students.

Invited Speakers

Dr. Janet Davies

Queen Mary University of London, United Kingdom

Janet has been a Clinical Reader/Hon Consultant in Paediatric Dentistry at Queen Mary University of London/Royal London Hospital, Barts Health NHS Trust since 2015 having completed her clinical specialist training and PhD there. She was previously a locum consultant at Great Ormond Street Hospital NHS Trust, London. She is the Course Director for the EAPD accredited DClin Dent in Paediatric Dentistry at QMUL and Deputy Director of Postgraduate Taught courses. She has recently been appointed as the chair of the new Dental Specialty Fellowship Examination board for Paediatric Dentistry having been an examiner and board member of the MPaed Dent examination since 2018. Her research interests include family-based caries prevention strategies, dental development, oral surgery and periodontal disease in children.

Prof. Dominique Declerck

KU Leuven, Belgium

Dominique Declerck is emerita full professor at the KU Leuven Department of Oral Health Sciences (Belgium) where she was responsible for the postgraduate training in Pediatric dentistry & Special needs between 2011 and 2025.

Her clinical expertise includes comprehensive dental care delivery in pediatric patients and patients with special needs. Research activities focus on the epidemiology of oral diseases and implementation of oral health promotion interventions.

She is (co)author of more than 170 peer-reviewed international papers.

She is Past-President and founding member of the Belgian Academy of Paediatric dentistry (BAPD) and Past-President of EAPD (2024-2026).

Dr. Michalis Diomataris

Odontomorphosis Dental Clinic, Greece

Michalis Diomataris received his DDS in 2009 from the National and Kapodistrian University of Athens Dental School, Greece. In 2017 he received his Master specialty from the postgraduate program of Operative Dentistry of the National and Kapodistrian University of Athens, and in 2021 his Diploma in Reconstructive Surgery of periodontal and peri-implant tissues of Vita-Salute San Raffaele University of Milan.

From 2011 since 2017 he was Teaching Assistant of the undergraduate dental students, in the contemporary principles of aesthetic and restorative dentistry in the same university, and from 2020 since 2021 he was a Teaching Assistant in the postgraduate program of Aesthetic & Restorative Dentistry of the Aristotle University of Thessaloniki.

In 2013 he receives the first award of a national competition between the postgraduate students of Operative Dentistry of the national Dental Schools, presenting a case with the topic of "class IV restoration of a maxillary central incisor".

He has studied in vitro the marginal fit of CAD/CAM ceramic onlays with digital impression, composite onlays manufactured on gypsum casts and composite onlays on PVS casts with analog impression.

From 2014-2019 he was privately practicing in 'Athena Smile' dental clinic, in Athens, Greece, in the fields of Aesthetic and Restorative dentistry and Prosthodontics.

From 2021 he is business owner of the Dental clinic 'Odontomorphosis', in Athens, Greece.

He's member of the Bio-Emulation Group and the Hellenic Society of Medicine and Dental Technology.

Since 2016, he is giving lectures and hands-on seminars in Greece and international, in the field of Aesthetic and Restorative Dentistry and Prosthodontics.

Invited Speakers

Prof. Brett Duane
Trinity College Dublin, Ireland

Professor Brett Duane is Associate Professor in Dental Public Health at Trinity College Dublin. A leading researcher in sustainable healthcare, he has published extensively on life cycle assessment, healthcare waste, procurement, and carbon footprinting. Already known internationally for his work in understanding the sustainability of dental care, he is also Principal Investigator of KitNewCare (Horizon Europe, €6M), developing tools to deliver environmentally and socially sustainable kidney care. Brett also leads educational innovation, embedding sustainability into healthcare curricula and institutional strategy. His work supports the EU Green Deal and WHO climate-resilient health goals, advancing prevention-focused, low-carbon, socially just healthcare systems.

Prof. Hal Duncan
Dublin Dental University Hospital, Trinity College Dublin, Ireland

- 2006: Membership in Restorative Dentistry from the Royal College of Surgeons (M.R.D R.C.S.)
- 2017: Doctorate in Oral Biology (Ph.D.)
- 2018: Specialist Fellowship for Services to Endodontics - Ad Eundem (F.F.D R.C.S.I.)
- 2024: Fellow of Trinity College Dublin (F.T.C.D)
- Published >180 international peer-reviewed scientific articles, 18 book chapters and 3 textbooks
- Current Editor-in-Chief International Endodontic Journal
- Past-president ESE, PBRG IADR

Prof. Roland Frankeberger
University Of Marburg, Germany

- 1993 Dr. med. dent. (Erlangen)
- 2000 Priv.-Doz. (PhD, Erlangen)
- 2009 Professor and Chair (Marburg)

Prof. Sotiria Gizani
National and Kapodistrian University of Athens, Greece

Sotiria Gizani obtained her Dental Degree from the University of Thessaloniki and then completed her 6-year postgraduate studies in Paediatric Dentistry at the Catholic University of Leuven (KU Leuven, Belgium), including the degrees of Master in dental sciences and Doctorate (PhD). Since 1998, she has been working at the Department of Paediatric Dentistry in the National and Kapodistrian University of Athens (Greece), where she is Professor and Chair of the Department as well as Director of the Postgraduate program, one of the eight EAPD accredited postgraduate programs in Europe. Dr Gizani is currently the Vice Dean of the School of Dentistry of the National and Kapodistrian University of Athens. She has been General Secretary of EAPD from 2018-2024 while recently she has been elected as President Elect. Moreover, she has published more than 100 papers in peer-reviewed journals and received international awards while she is member of the Editorial Board of the Journal 'European Archives of Paediatric Dentistry', Journal of Clinical Pediatric Dentistry and 'Oralprophylaxe & Kinderzahnheilkunde' (Springer). Her research interests focus mainly on clinical trials regarding prevention and management of caries in young children and orthodontic patients, oral health care of patients with special needs and vulnerable children as well as communication and behavior management in the dental setting.

Invited Speakers

Prof. Thomas Göen
University of Erlangen-Nuremberg, Germany

Thomas Göen studied chemistry at the University of Paderborn (Germany). He finished his doctoral thesis on the development and testing of molecular catalysts for enantioselective reactions at the Institute for Inorganic and Analytical Chemistry of the University of Paderborn in 1991. He went for a six-years post-doctoral term to the Institute of Occupational, Social and Environmental Medicine of the University of Erlangen-Nuremberg, in which he researched on the performance of biomonitoring parameters and on quality assurance systems. In 1998 he moved to the Aachen University of Technology (RWTH) as head of the analytical and toxicological laboratory at the Institute of Occupational and Social Medicine. In 2005, he returned to the Institute of Occupational, Social and Environmental Medicine of the University of Erlangen-Nuremberg, where he is heading the analytical and toxicological laboratory. Thomas Göen habilitated in 2005 and pursues his *venia legendi* as a university lecturer on occupational-medical toxicology at the Aachen University of Technology. In 2012 he was appointed as extraordinary professor (APL professor) by the Friedrich-Alexander University of Erlangen-Nuremberg. His scientific interest is focused on the development of biomarkers for hazardous chemicals and the metabolism of such substances in human. Thomas Göen is member of the Senate Commission for the Investigation of Hazardous Compounds in the Work Area of the Deutsche Forschungsgemeinschaft (DFG) and chairman of the working group 'Analysis of Hazardous Substances in Biological Materials'. He is also a member of the Human Biomonitoring Commission of the German Federal Environmental Agency and member of the organizing committee of the German External Quality Assessment Scheme for biomonitoring parameters (G-EQUAS).

Dr. Jenny Harris
Sheffield Teaching Hospitals NHS Foundation Trust and the University of Sheffield, United Kingdom

Dr Jenny Harris BDS, MSc, FDSRCS(Eng), FDS(Paed Dent), PhD qualified at Guy's Hospital, London in 1987, was appointed Specialist in Paediatric Dentistry in 2000 and Consultant in 2012.

For two decades, Jenny has held leadership roles in safeguarding vulnerable children, including developing UK national guidance Child Protection and the Dental Team (2006) and BSPD's policy document on dental neglect (2009/2024). In recognition, in 2018 she was awarded Honorary Membership of Council by children's charity the NSPCC. She is Past President of BSPD (2022/3) and, in 2025, was awarded a PhD for her thesis entitled 'Equipping the dental workforce to safeguard children and manage dental neglect'.

Dr. Claudia Heggie
University Of Leeds, United Kingdom

Claudia Heggie is a specialist Paediatric Dentist currently taking time out of her consultant training to complete an NIHR funded PhD at the University of Leeds. Her research focuses on the use of photobiomodulation (a red light or laser treatment) for oral mucositis prevention in children and young people receiving cancer and stem cell transplant treatments. Specifically, she is exploring the implementation of this treatment as part of standard care in the United Kingdom in the SPOT-LITE study (www.leedsPBM.com). Alongside this, she treats children with complex medical needs at the Leeds Teaching Hospitals Trust.

She works closely with children and families affected by cancer to deliver her research, as part of the Candlelighters Supportive Care Research Centre, and is passionate about improving child oral health and quality of life during treatment and beyond.

Prof. Georgios Kanavakis
National and Kapodistrian University of Athens, Greece

George Kanavakis is an Assistant Professor of Orthodontics in the School of Dentistry of the National and Kapodistrian University of Athens, Greece.

He is a Diplomate of the American Board of Orthodontics and a full member of the Edward H. Angle Society of Orthodontists.

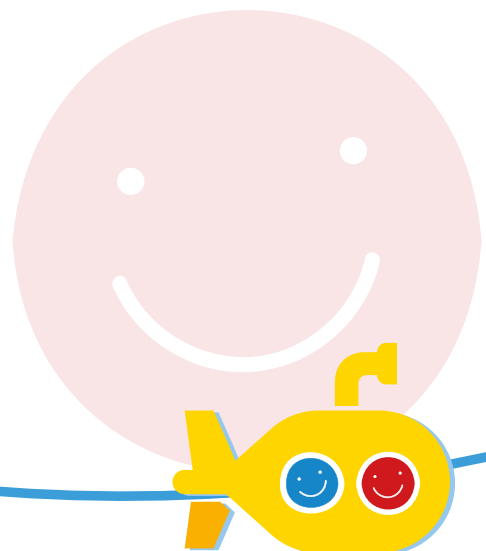

Dr. Kanavakis is a graduate of the School of Dentistry at the Aristotle University of Thessaloniki. He holds a postgraduate certificate in Temporomandibular Disorders and Orofacial Pain, a Master of Science, and a postgraduate certificate in Orthodontics and Dentofacial Orthopedics from Tufts University, School of Dental Medicine in Boston, MA. He also holds a doctorate degree from the University of Bern, Switzerland and a PhD from the University of Oulu in Finland.

Dr. Kanavakis has published more than 50 articles in peer-reviewed orthodontic journals and has co-authored three book chapters. He is currently Associate Editor of the AJODO and a reviewer for more than 20 scientific journals. His main research interests focus on Factors affecting the Perception of Facial Appearance, Three-Dimensional Facial Analysis, 3D Imaging, as well as the use of skeletal anchorage in orthodontic clinical practices.

Prof. Fadi Jarad
University Of Liverpool, United Kingdom

Professor Fadi Jarad is a Professor of Restorative Dentistry and the Director of Postgraduate Programmes at the University of Liverpool. His research focuses on vital pulp therapy, dental trauma, and managing young permanent molars with irreversible pulpitis. He has co-led NIHR-funded clinical trials on pulpotomy in teeth with irreversible pulpitis and co-authored key publications on pulpotomy, calcium silicate materials, and dental trauma. His lecture, "Management of Young Permanent Molars with Irreversible Pulp Inflammation," will examine evidence-based strategies based on his translational research. He also oversees Sandstone and Sunlight Dental Practices, providing specialised care in the Wirral.

Invited Speakers

Prof. Christian Kirschneck **University Of Bonn, Germany**

Studied dentistry and molecular medicine at the University of Regensburg, doctorate in both subjects with the grade «summa cum laude», studied health economics (MHBA) at the FAU University of Erlangen-Nuremberg

2017: Specialist dentist for orthodontics

2017: Habilitation and Venia legendi for dentistry, oral and maxillofacial surgery at the University of Regensburg

2018: Senior Physician, Department of Orthodontics, University Hospital Regensburg

2018: Teaching Award "Good Teaching" of the Faculty of Medicine of the University of Regensburg

2019: Deputy Director and Senior Consultant, Department of Orthodontics, University Hospital Regensburg

2020: Specialization in "Craniomandibular Dysfunctions" (University Hospital Schleswig-Holstein)

2021: Second place Chair of Orthodontics at the University of Geneva, Switzerland

2022: First Chairman of the Working Group for Basic Research (AfG) of the German Society for Dentistry, Oral and Maxillofacial Surgery (DGZMK)

2023: Specialization in "Dental Sleep Medicine" (German Society for Dental Sleep Medicine)

2023: Appointment to the Chair of Orthodontics at the Rheinische Friedrich-Wilhelm-University Bonn (successor to Prof. Dr. Andreas Jäger) since 10/2023 Director of the Department of Orthodontics at the University Hospital Bonn

Scientific focuses and awards

- over 200 scientific publications and author of numerous book chapters
- Author of the short textbook "DENTICS Orthodontics" (Elsevier Publishing)
- genetic-epidemiological research on craniofacial phenotypes
- immunological-molecular basic research on orthodontic tooth movement
- clinical and epidemiological research on various topics
- Section editor of the scientific journals «Clinical Oral Investigations», «Annals of Anatomy», «Journal of Orofacial Orthopedics» and «Korean Journal of Orthodontics»
- Awards (selection): German Miller Award of the DGZMK (2019), Arnold Biber Prize of the DGKFO (2014 and 2023), Erwin Reichenbach Prize (2015), EOS Best Poster Award (2015 and 2016), FEO Best Paper Award (2015)

Prof. Norbert Kraemer **Giessen University, Germany**

Prof. Krämer obtained his PhD from the University of Erlangen in 1997. Between 2006 and 2009 he was the chair of the Department of Paediatric Dentistry in Dresden.

In 2009 he was appointed to the Director of the Departement of Paediatric Dentistry at the University of Gießen. He was elected in different positions (2000-2004 President of the German Society of Paediatric Dentistry [GSPD], 2010-2012 President of the EAPD, 2015-2019 again President of the GSPD, 2017-2020 member of the Board of Directors of the IAPD, 2024 Board Member of the GSPD). Since 2016 he is chair of the Future Congress and Seminar Committee of the EAPD. He is in the Editorial Board of several peer-reviewed journals. He has published ca. 200 research papers/books/articles.

Dr. Therese Kvist
University Of Western Australia, Australia

University Of Western Australia, Australia

Dr Therese Kvist is a Senior Lecturer in Paediatric Dentistry at the UWA Dental School. She earned her PhD from Karolinska Institutet in Stockholm, Sweden, in 2016, where she also completed her specialist training in paediatric dentistry in 2017. Dr Kvist's academic and research interests span child protection, family and domestic violence, child health and welfare, forensic odontology, and paediatric oral health. She has a strong commitment to curriculum development in dental education and brings experience in designing and delivering educational programs on child protection and family violence for dental students, as well as for medical and dental professionals. Her work is grounded in a multidisciplinary and trauma-informed approach, aiming to enhance professional competence and improve outcomes for vulnerable populations.

Prof. David Manton
University Medical Centre Groningen, Netherlands

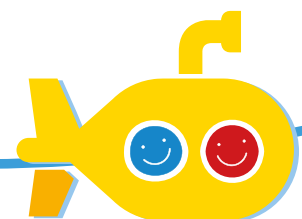

David has spent nearly 40 years in private practice and academia and is currently a Professor of Paediatric Dentistry at the UMCG, University of Groningen and a visiting professor at ACTA in Amsterdam. He previously convened the specialist training program in paediatric dentistry at the University of Melbourne, and was chair of the postgraduate education and research committee. David is involved in several collaborative and postgraduate research projects in both paediatric dentistry and orthodontics. Graduated BDSc (Melb) in 1984 and worked in general practice until 1991 when he undertook an MDSc in Paediatric Dentistry and then completed his PhD in 2010. He was dental advisor to the Australian Federal Government from 1994 – 1996 and won the KG Sutherland Prize of the Royal Australasian College of Dental Surgeons in 2007. David was a member of the advisory board of ORCA for 9 years. He is the Editor-in-Chief of the European Archives of Paediatric Dentistry and an associate editor of Caries Research. David is a past president of the IADR paediatric oral health research group.

Prof. Tim Newton
King's College London, United Kingdom

Tim Newton is a Psychologist working in the field of dentistry with the goal of ensuring that everyone has the opportunity to enjoy the benefits of good oral and dental health. He is particularly interested in how to support people to ensure that they look after their mouth and teeth to the best of their ability, and how to encourage dental healthcare professionals to work with patients to develop healthy behaviours.

Tim is delighted and proud to be a Trustee of the Alliance for a Cavity Free Future.

Invited Speakers

Prof. Kalaiarasu Peariasamy

Adjunct Professor at School of Medicine Taylor's University Malaysia

Datuk Dr Kalaiarasu M. Peariasamy (DDK) is a Senior Lecturer in Paediatric Dentistry at SEGi University and an Adjunct Professor at School of Medicine Taylor's University in Malaysia. He has held the position of Senior Consultant and Head of Paediatric Dentistry at Sungai Buloh Hospital, where he focused on cleft dentistry, dental traumatology, oral diseases and paediatric oral surgery. Additionally, he was the Director of the Institute for Clinical Research (ICR) at Malaysia's National Institutes of Health (NIH) from 2019 to 2023, overseeing clinical research, digital health applications and patient-related clinical trial outcomes. He has published in numerous indexed journals, contributed textbook chapters on «Cleft Lip & Palate, Syndromes and Associated Anomalies», and is an editorial board member of Journal of Dental Traumatology. Currently, he serves as an independent expert for the Medical Research Ethics Committee (MREC) of the Ministry of Health of Malaysia, and he is also a member of the IDDO Data Access Committee (DAC) for the Special Programme for Research and Training in Tropical Diseases.

Prof. Bob Phillips

University Of York, United Kingdom

Bob is a Professor of Paediatrics and Evidence Synthesis at the Centre for Reviews and Dissemination at the University of York and Hull/York Medical School, and an Honorary Consultant in Paediatric / Teenage-Young Adult Oncology at Leeds Children's Hospital.

He is also the Director of Candlelighters Supportive Care Research Centre, where his main areas of work are in the development of supportive care for children with cancer, individual participant data (IPD) meta-analysis, and the development of skills in appraisal and translation of clinical research into practice.

Prof. Maria Cadenas de Liano Perula

Department of Oral Health Sciences - Orthodontics KU Leuven University, Belgium

Maria Cadenas is Assistant Professor at the section of Orthodontics of the Department of Oral Health Sciences of KU Leuven University, Belgium, where she is involved in postgraduate training and is responsible of the orthodontic research output. Her research interests are Biology of Tooth Movement, Root resorption, Tooth Transplantation and Cleft Lip and Palate. She has worked as a clinical orthodontist since 2012, mainly on patients with Cleft lip and Palate, Craniofacial syndromes, multiple congenitally missing teeth, enamel and dentin abnormalities and dental trauma.

She also coordinates the international relations of the school of Dentistry of KU Leuven and is Councillor of the Orthodontic Research Group (ORG) of the International Association of Dental Research (IADR), member of European Orthodontic Society (EOS) and the Digital Taskforce of the Network of Erasmus Based European Orthodontic Programs (NEBEOP), where she leads the development of the NEBEOP Web Academy, and online platform for postgraduate teaching in orthodontics.

Invited Speakers

Prof. Helen Rodd
University Of Sheffield, United Kingdom

I am a professor of paediatric dentistry at the School of Clinical Dentistry, University of Sheffield, UK. My research is very much driven by my clinical encounters and primarily focuses on the impact of dental conditions and related treatment on children's psychosocial status. Much of this research has involved children with molar incisor hypomineralisation or amelogenesis imperfecta. A further area of ongoing research relates to the management of child dental anxiety using a novel CBT intervention. I am currently involved in two NIHR-funded clinical trials within primary dental care and an international study exploring associations between MIH and other dental anomalies. A recent career highlight was being awarded a national honour (MBE) for my services to young people and the national health service. I keep 'grounded' by fell running, cycle touring and yoga.

Prof. Jonathan Sandoe
School of Medicine | University of Leeds

Jonathan Sandoe (JS) is Associate Clinical Professor of Medical Microbiology at the University of Leeds and Honorary Consultant Microbiologist at Leeds Teaching Hospitals NHS Trust, Leeds, UK. JS was appointed as a consultant in Leeds in 2006 when he set up the Leeds endocarditis service and the improving antimicrobial prescribing groups in 2006.

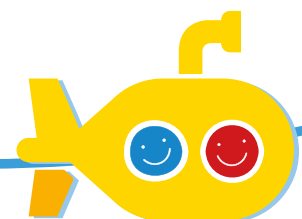

He has a specialist interest in antimicrobial stewardship and complex device/cardiac infections. JS's research interests all relate to improving the use of antibiotics, including development and evaluation of new diagnostic tests for infection and antibiotic monitoring. Recent studies include: co-chief investigator for the ALABAMA (Allergies antibiotics and microbial resistance) programme, which included a randomised clinical trial of penicillin allergy assessment looking at its impact on antibiotic prescribing and patient health outcomes.

JS was a member of the National Institute for Health and Care Excellence infective endocarditis prophylaxis guideline group in 2008 and 2015. He is currently a member of the UK Department of Health advisory group on Antimicrobial Prescribing Resistance and Healthcare Associated Infection.

Prof. Julie Taylor
University of Birmingham, United Kingdom

Julie is a nurse scientist specialising in child maltreatment and has extensive research experience with vulnerable populations using a wide range of qualitative and participative methods. Her research programme is concentrated at the interface between health and social care and is largely underpinned by the discourse of cumulative harm and the exponential effects of living with multiple adversities (domestic abuse, parental mental ill health, substance misuse, disabilities etc.). In particular her work has concentrated on child neglect. Professor Taylor has given evidence at a number of inquiries and parliamentary groups and has served frequently on both funding and editorial boards.

Invited Speakers

Dr. Nitesh Tewari

All India Institute Of Medical Sciences, New Delhi, India

Dr. Nitesh Tewari has been active in Dental-Trauma related clinical-care and research, and Evidence-Based-Medicine with 180 publications and seven test-book contributions. He has lectured in over 170 events in 20 countries. His works have been awarded by IADT, IAPD, Craniofacial Research Foundation, IADR, Japan Dental Association, International Federation of Endodontic Associations, and Royal College of Surgeons of Glasgow. He is a fellow of six societies and serves as Communication Officer of IADT, General Secretary of Indian Society of Dental Traumatology, and Additional Professor of Pediatric Dentistry at the All India Institute of Medical Sciences, New Delhi, India.

Prof. George Tsilingaridis

Karolinska Institutet, Sweden

Dr. Georgios Tsilingaridis graduated at the Karolinska Institute in 1997. In 2004, he completed his pediatric dentistry specialisation at the Eastman Institute in Stockholm, and in 2013 he defended his doctoral dissertation at the Karolinska Institute.

He is currently associate professor, head of the division of Pediatric Dentistry and vice dean at the department of Dental Medicine, Karolinska Institutet. He is also director of studies for all post-graduate education in the Region of Stockholm.

He is the past-president of the Swedish Society of Pediatric Dentistry and the past-president of the Swedish national group of directors for studies for postgraduate education.

His research is clinically focused, with a strong emphasis on prevention, trauma, and oral health in children with special needs. His work spans over several key areas in pediatric dentistry and aims to improve diagnosis, treatment, and follow-up care for children at high risk for poor oral health.

One primary research area is traumatic injuries in the young permanent dentition, where Tsilingaridis investigates regenerative treatment methods and apexification in cases of necrotic pulp. The goal is to preserve tooth function and structure during growth, which is crucial for long-term dental health in children.

Another research line concerns caries prevention in socioeconomically disadvantaged children. Early interventions and collaboration between healthcare providers are studied to reduce inequalities in oral health.

His research also includes oral health in children with chronic diseases, such as Osteogenesis Imperfecta, Down syndrome, and childhood cancer survivors. By identifying long-term effects of disease and treatment on oral mucosa and tooth development, the research aims to improve care routines and preventive strategies for these patient groups.

His work has strong international ties through involvement in organizations such as the International Association of Dental Traumatology (IADT), where he has contributed to the development of global guidelines for dental trauma treatment in children and the European Association of Paediatric Dentistry where he works in different committees.

Prof. Svante Twetman

University Of Copenhagen, Denmark

Copenhagen and specialist in pediatric dentistry. The research covers the role of the oral biofilm in health and disease, risk assessment and caries prevention with fluorides among children and young adults. More recently, the research has focused on pre- and probiotic supplements for the prevention and maintenance of oral health through clinical trials and explorative laboratory studies. He has published over 300 peer-reviewed papers and contributed in several textbooks. Among several international awards, he received the IADR Distinguished Scientist Award in 2010 and 2011.

Invited Speakers

Prof. Chris Vernazza

School of Dental Sciences, Newcastle University, United Kingdom

Chris is Head of School and Professor of Oral Health Services at the School of Dental Sciences, Newcastle University. His research focusses on application of health economics in oral health, including valuation of health, economic evaluations and priority setting for oral health resources.

Chris currently practises as a consultant in paediatric dentistry at Newcastle Dental Hospital and has teaching responsibilities across the oral health related programmes at Newcastle University. He has positions with the World Dental Federation, British Society of Paediatric Dentistry, and the Alliance for a Cavity Free Future and the Oral and Dental Research Trust.

Dr. Arina Vinereanu

Romanian National Association of Paediatric Dentistry, Romania

Graduated in 1991 from Carol Davila University, Romania, got post-graduate degrees in PD, general dentistry, implantology; PhD (2005). Authored a book on prosthetic restorations in children (2005); co-authored a book on the role of fluoride in caries prevention (2022); published over 40 papers in peer-reviewed journals; presented over 70 works in international/national meetings.

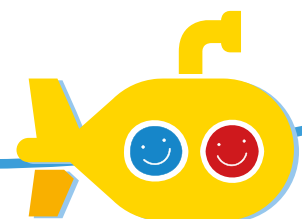

Current work: international post-graduate education projects for dentists (O.S.C.A.R., PaFein+); member of the Education Committee of the IAPD; coordinates volunteer programs providing dental treatment to children with special needs (since 2005); president of the Romanian National Association of Paediatric Dentistry (ANSPPR).

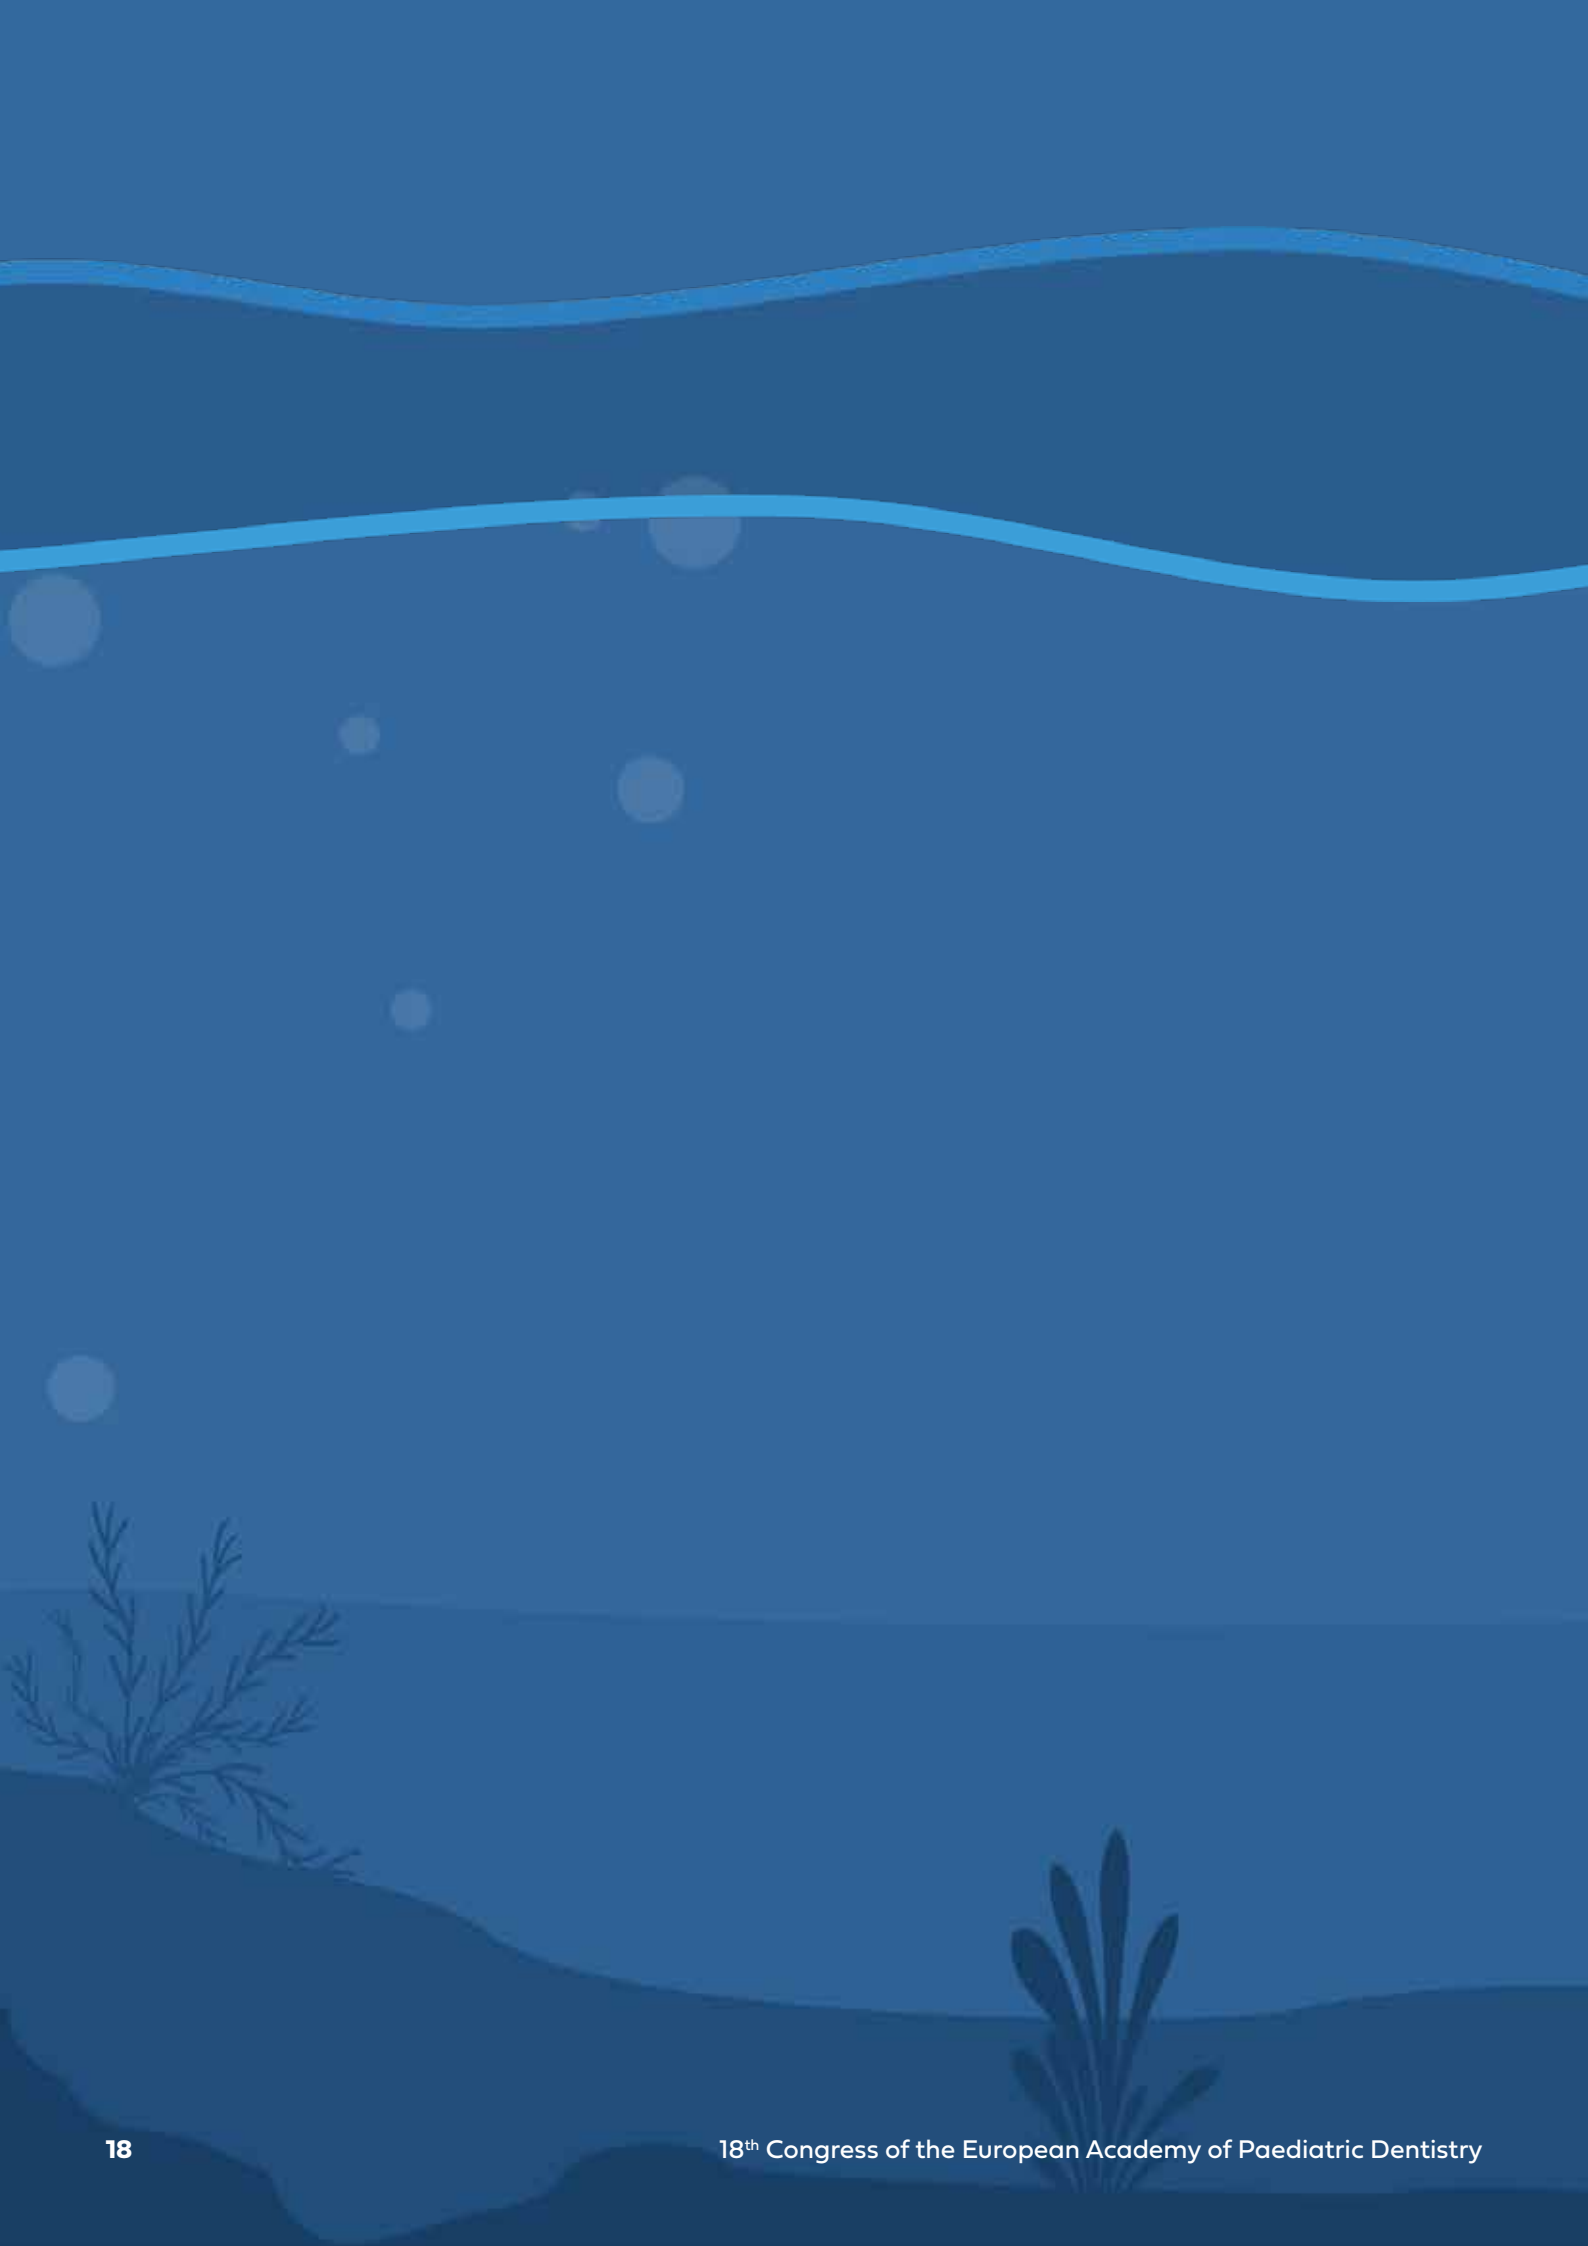

Prof. Matthias Widbiller

University Hospital Regensburg, Germany

Prof. Dr. Matthias Widbiller began his academic career in 2013 after completing his dental studies at the University of Regensburg. He then worked both as a dentist and as a research assistant at the Department of Conservative Dentistry and Periodontology at the University Hospital of Regensburg, where he obtained his doctorate in 2015. Matthias Widbiller is a lecturer in conservative dentistry and a certified university teacher. His interest in research and continuing education led him to the University of Texas Health Science Center at San Antonio (UTHSCSA), USA, as a postdoctoral fellow from 2017 to 2018. During this time, he joined the renowned research laboratory of Dr. Kenneth M. Hargreaves and Dr. Anibal Diogenes. He worked intensively on tissue engineering of dental pulp, bioactive materials and bioactive proteins of the dentin matrix. As a clinical expert, Dr. Widbiller has particular expertise in dental traumatology, vital pulp therapy and regenerative endodontic procedures. Since 2016, he has coordinated the Centre for Dental Traumatology at the University Hospital of Regensburg, and since 2021, he has been the head of the research department. In 2023, Dr Widbiller was appointed by the university as full professor of endodontics.

Scientific Programme

Wednesday, July 01, 2026

ROOM 3A

09:00-10:45 **Pre-Congress program:**
Endodontic treatment methods in young molars - Part I
Moderator: Hal Duncan (Ireland), Sotiria Gizani (Greece)

09:00 - 9:05 **Introduction and Welcome**
Sotiria Gizani (Greece)

09:05 - 9:50 **Pulp Diagnosis**
Hal Duncan (Ireland)

09:50 - 10:35 **Behaviour guidance and pain control: you can't have one without the other**
Arina Vinereanu (Romania)

10:35 - 10:45 **Discussion**

ROOM 3B

09:00-10:40 **SPONSORED WORKSHOP** (see page 55)

10:40-11:10 **COFFEE BREAK**

ROOM 3A

11:10-12:50 **Pre-Congress program:**
Endodontic treatment methods in young molars - Part II
Moderator: Moderators: Hal Duncan (Ireland), Sotiria Gizani (Greece)

11:10 - 11:55 **Beyond Apexification – Regenerative Endodontics for Immature Teeth**
Matthias Widbiller (Germany)

11:55 - 12:40 **Management of young permanent molars with irreversible pulp inflammation**
Fadi Jarad (United Kingdom)

12:40 - 12:50 **Discussion**

ROOM 3B

11:10-13:00 **SPONSORED WORKSHOP** (see page 55)

13:00-14:00 **LUNCH BREAK**

ROOM 3A BALCONY

13:00-14:00 **ASK THE EXPERTS – case reports in small group**

ROOM 12

14:00-15:55 **SPONSORED WORKSHOP** (see page 55)

Scientific Programme

● ● ● Wednesday, July 01, 2026

📍 ROOM 3A

14:20-15:55 **Pre-Congress program:**
Endodontic treatment methods in young molars - Part III
Chair: Hal Duncan (Ireland), Sotiria Gizani (Greece)

14:20 - 15:00 **Injection Moulding Technique**
Roland Frankenberger (Germany)

15:00 - 15:45 **Extractions – an orthodontic perspective**
Christian Kirschneck (Germany)

15:45 - 15:55 **Discussion**

15:55-16:25 **COFFEE BREAK**

📍 ROOM 12

16:25-17:00 **SPONSORED WORKSHOP** (see page 55)

📍 ROOM 3A

16:25-17:25 **Pre-Congress program:**
Endodontic treatment methods in young molars - Part IV
Chair: Hal Duncan (Ireland)

16:25 - 17:10 **Health economic considerations of molar endodontics**
Chris Vernazza (United Kingdom)

17:10 - 17:25 **Recap of the day/take home messages**
Hal Duncan (Ireland)

📍 HALL 1A

18:30-19:30 **OPENING CEREMONY**

Scientific Programme

Thursday, July 02, 2026

📍 HALL 1A

09:00-11:00	EAPD Main Symposium 1: Management of the medically complex child Moderator: Ferranti Wong (United Kingdom)
09:00 - 09:35	Mucositis, oral health & paediatric supportive cancer care Claudia Heggie (United Kingdom)
09:00 - 09:35	Mucositis and cancer patients Bob Phillips (United Kingdom)
09:35 - 10:10	Dental care for children and adolescents with bone diseases: diagnosis and treatment Kristofer Andersson (Sweden)
10:10 - 10:45	An Update on Infective Endocarditis Jon Sandoe (United Kingdom)
10:45 - 11:00	Panel Discussion

11:00-11:30 COFFEE BREAK

📍 HALL 1A

11:30-13:00	EAPD Satellite Symposium: Pharmacology for young dental patients Moderator: Sivaprakash Rajasekharan (Belgium)
11:30 - 12:10	Paediatric pharmacokinetics: key considerations for the paediatric dentist Karel Allegaert (Belgium)
12:10 - 12:50	Best clinical practice guidance for the use of antibiotics in children Dominique Declerck (Belgium)
12:50 - 13:00	Discussion

📍 HALL 1B

11:30-13:00	Oral Presentations Session 01 Moderators: Rubya Adamji (United Kingdom), Arina Vinereanu (Romania)
11:30 - 11:40	OP 1.01 Dental Treatment in Children under General Anesthesia: A 24-year Retrospective Study Victor Manyong Makanz (Belgium)
11:40 - 11:50	OP 1.02 Parental acceptance of behaviour guidance techniques in paediatric dentistry in Greece: a 10-year follow-up cross-sectional study Konstantinos Karaseridis (Greece)
11:50 - 12:00	OP 1.03 Comparison of computer-controlled intraosseous anaesthesia and conventional anaesthesia in paediatric dental patients: a split-mouth randomised clinical trial. Anastasia Dermata (Greece)
12:00 - 12:10	OP 1.04 The Role of a Robot Cat in Supporting Children with Autism Spectrum Disorder During Dental Visits: An Exploratory Study Anna Lena Sundell (Sweden)

Scientific Programme

● ● ● Thursday, July 02, 2026

12:10 - 12:20 **OP 1.05** **Factors for N₂O–O₂ sedation outcomes in preschool children**
Sofia Raevskaia (Germany)

12:20 - 12:30 **OP 1.06** **Satisfaction of Parents and Guardians of Children Treated by Undergraduate Dental Students**
Ifan George (United Kingdom)

12:30 - 12:40 **OP 1.07** **Evaluation of Stress Levels of Intern Dentists and Dentists During Pedodontic Treatment Procedures**
Serife Merve Aksakal (Turkey)

12:40 - 12:50 **OP 1.08** **Effect of Pre-restorative Glass-Ionomer Sealing on Dentin Sensitivity in Children with MIH: A Pilot Study**
Nida Yazıcı (Turkey)

12:50 - 13:00 **OP 1.09** **Evaluation of the Effectiveness of Video Modeling on Dental Anxiety During Dental Treatment in Preschool Children**
Pinar Kinay Taran (Turkey)

📍 HALL 1C

11:30-13:00 **Oral Presentations Session 02**
Moderators: Urshla Devalia (United Kingdom), Katrin Bekes (Austria)

11:30 - 11:40 **OP 2.01** **Clinical and Radiographic Characteristics of Molar–Root Incisor Malformation (MRIM) and Possible Etiological Factors: A Cross-Sectional Study**
Zeynep Ezer (Turkey)

11:40 - 11:50 **OP 2.02** **Anterior Zirconia Crowns for Management of Progressive ECC with Dentinogenesis Imperfecta**
Sarah Balal (Kuwait)

11:50 - 12:00 **OP 2.03** **Vital and Non-Vital Tooth Bleaching in Adolescents with Trauma-Related and Developmental Enamel and Dentine Discolouration: A Case Series.**
Michelle Lee (Singapore)

12:00 - 12:10 **OP 2.04** **Evaluation of Dental Anomalies and Potential Use of Optical Coherence Tomography in Children with Osteogenesis Imperfecta**
Rossella Ninivaggi (Italy)

12:10 - 12:20 **OP 2.05** **An investigation of amelogenesis imperfecta and its association with dental anomalies**
Reuben Bennett (United Kingdom)

12:20 - 12:30 **OP 2.06** **An Audit to compare and assess dental appointments for 18-Month-Old Cleft Patients at St Thomas' Hospital Paediatric Dental Department**
Zeinab Atiah (United Kingdom)

12:30 - 12:40 **OP 2.07** **Application of talon cusp management approaches to more complex dental anomalies of tooth shape and form**
Maheen Siddiqui (United Kingdom)

12:40 - 12:50 **OP 2.08** **The patient profile of a consultant-led paediatric amelogenesis imperfecta clinic – A retrospective cross-sectional study**
John Linden (United Kingdom)

Scientific Programme

Thursday, July 02, 2026

12:50 - 13:00 **OP 2.09** **Measuring tooth hypersensitivity in children with MIH: psychometric evaluation of a new measure**
Joana Monteiro (United Kingdom)

ROOM 4

11:30-12:55 **Poster Discussion Session 01**
Moderators: Richard Balmer (United Kingdom), Janet Davies (United Kingdom)

11:30 - 11:35 **OPD 1.01** **Efficacy of Behaviour Management in Supporting Provision of Child Friendly Scheme in Dental Practice**
Mawj Alalawi (United Kingdom)

11:35 - 11:40 **OPD 1.02** **Using Virtual Reality to Support Local Anaesthetic Management of Paediatric Oral and Maxillofacial Emergencies: A Case Series**
Nada Ridha (United Kingdom)

11:40 - 11:45 **OPD 1.03** **Pain perception during dental treatment following local anaesthetic administration in paediatric patients**
Simin Peng (China)

11:45 - 11:50 **OPD 1.04** **Effect of photobiomodulation therapy on post-extraction pain management of mandibular primary molars.**
Rowan Salem (United Kingdom)

11:50 - 11:55 **OPD 1.05** **Utilisation and Outcomes of Intravenous Sedation in Paediatric Dental Emergencies: A Retrospective Review**
Ahmad Shuhud Irfani Zakaria (Malaysia)

11:55 - 12:00 **OPD 1.06** **Can Technology Replace Tradition? A Randomised Controlled Trial on Smartphone-Mediated behaviour guidance vs. Tell-Show-Do for Child Dental Anxiety**
Amira ElKhatib (Egypt)

12:00 - 12:05 **OPD 1.07** **Vital signs in cleft children undergoing nitrous oxide conscious sedation**
Jana Vasakova (Czech Republic)

12:05 - 12:10 **OPD 1.08** **A Safeguarding Jigsaw Puzzle: A Paediatric Dentistry Perspective**
Bijal Gadhavi (United Kingdom)

12:10 - 12:15 **OPD 1.09** **Repping the RAP Clinic: Development and Evaluation of a Reasonable Adjustments Pathway (RAP)**
Ginal Patel (United Kingdom)

12:15-12:45 **BSPD Poster Prize**

12:15 - 12:20 **OPD 1.11** **Antimicrobial Activity of Guava Leaf Extract against Key Oral Bacteria**
Oladayo Adekusibe (United Kingdom)

12:20 - 12:25 **OPD 1.12** **Service Evaluation: Management of Second Primary Molars under General Anaesthetic**
Amy Ellis (United Kingdom)

Scientific Programme

● ● ● Thursday, July 02, 2026

12:25 - 12:30	OPD 1.13	Improving Patient Pathways and Sustainability by Optimising Remote and Primary Care Reviews Nina Fraser (United Kingdom)
12:30 - 12:35	OPD 1.14	Oral health interventions for Bangladeshi children and their families: A scoping review Julia Hurry (United Kingdom)
12:35 - 12:40	OPD 1.15	The Root of the Problem: Retrograde endodontics in Dentinogenesis Imperfecta Shimal Némat (United Kingdom)
12:40 - 12:45	OPD 1.16	Using Cognitive Working Data to Support Inclusive Dental Training and Workforce Retention Susan Stokes (United Kingdom)
12:45 - 12:50		DCP Poster Prize
12:45 - 12:50	OPD 1.17	Dental Therapy Students' Experiences of Children's Hospital Placements Joanne Bowles (United Kingdom)

17:00 - 17:05	OPD 2.13	Effect of Irrigation With Effective Ecoproduce (EEP) on Mechanical Property of Root Dentin Surface: An In Vitro Study Munirah Ab Talib (Malaysia)
17:05 - 17:10	OPD 2.14	Longevity of prefabricated crowns for primary molar teeth: a retrospective analysis Maria Hofmann (Germany)
17:10 - 17:15	OPD 2.15	Morphological and compositional alterations of in vivo aged metallic dental appliances Antrea Michail (Greece)
17:15 - 17:20	OPD 2.16	Efficacy of a prophylactic paste with PRG (Pre-Reacted Glass ionomer) technology in reducing dental plaque index: an in situ pilot study Ana Carolina Gentile (Brazil)
17:20 - 17:25	OPD 2.17	Innovative Fluoride-Rechargeable Layered Double Hydroxide (LDH) as a Remineralising Agent for Use in Paediatric Dentistry Samaher Almahdi (United Kingdom)
17:25 - 17:30	OPD 2.18	From Guarded Prognosis to Hard Tissue Healing: A Root Fracture Case Farah Alsaeed (United Kingdom)

📍 HALL 1A

17:40-19:00

EAPD General Assembly

Scientific Programme

Friday, July 03, 2026

📍 HALL 1A

09:00-11:00 **EAPD Main Symposium 2: Sustainability in Paediatric Dentistry**
Moderator: Sotiria Gizani (Greece)

09:00 - 09:35 **May endocrine disruptors play a role on tooth development?**
Thomas Göen (Germany)

09:35 - 10:10 **Biocompatibility of restorative materials in paediatric dentistry**
Roland Frankenberger (Germany)

10:10 - 10:45 **Measuring and monitoring the things that matter in paediatric dentistry**
Brett Duane (Ireland)

10:50-11:00 **Discussion**

11:00-11:30 **MORNING BREAK & EXHIBITION**

📍 HALL 1A

11:30-13:00 **EAPD Satellite Symposium: Trauma**
Moderator: Sondos Albadri (United Kingdom)

11:30 - 11:55 **Primary Tooth Trauma - Managing Immediate and Delayed Complications**
Nitesh Tewari (India)

11:55 - 12:20 **Dental Trauma Sequelae in Growing Individuals - Challenges and Solutions for the Permanent Dentition**
George Tsilingaridis (Sweden)

12:20 - 12:45 **Oral health quality of life in children with dental trauma**
Helen Rodd (United Kingdom)

12:45 - 13:00 **Discussion**

📍 HALL 1B

11:30-13:00 **Oral Presentations Session 06**
Moderators: Anna Kana (United Kingdom), Richard Welbury (United Kingdom)

11:30 - 11:40 **OP 6.01** **Inflammation Alters the Phenotype and Immunomodulatory Function of Human Dental Pulp Stem Cells**
Elanagai Rathinam (Belgium)

11:40 - 11:50 **OP 6.02** **Clinical and Radiographic Outcomes of Odontopaste versus Triple Antibiotic Paste in Lesion Sterilization and Tissue Repair: A 6-month Randomized Controlled Trial**
Mohd Izzat Bin Mohamed Noor (Malaysia)

11:50 - 12:00 **OP 6.03** **Evaluation of the 2-Year Clinical and Radiological Success of Pulpotomy Treatments Performed with ProRoot MTA, Neoputty MTA and Theracal PT in Primary Teeth**
Betül Kaan (Turkey)

12:00 - 12:10 **OP 6.04** **Endodontic Treatment of Type III Coronal Dens Invaginatus with Periradicular Lesions in Young Permanent Teeth**
Yingxue Li (China)

Scientific Programme

● ● ● Friday, July 03, 2026

12:10 - 12:20 **OP 6.05** Microbiological Efficacy of Irrigation Protocols in Primary Teeth: A Metagenomic Study
Tarun Walia (United Arab Emirates)

12:20 - 12:30 **OP 6.06** Long-term outcome of the Hall Technique as a treatment approach for Hypomineralised Second Primary Molars
Anna Nevelsteen (Belgium)

12:30 - 12:40 **OP 6.07** Effect of Resin Infiltration Time on MIH Enamel
Daniela Hesse (Netherlands)

12:40 - 12:50 **OP 6.08** Prevalence of MIH and HSPM among 6- and 7-year-old children in Austria
Katrin Bekes (Austria)

12:50 - 13:00 **OP 6.09** Preparedness of Newly Qualified Dentists to Manage Patients with Cleft Lip +/- Palate: A National Cross-Sectional Study of Dental Foundation Trainees in Wales
Llio Turner (United Kingdom)

📍 HALL 1C

11:30-13:00 **Oral Presentations Session 07**
Moderators: Laura Gartshore (United Kingdom), David Manton (Netherlands)

11:30 - 11:40 **OP 7.01** Mesoporous silica functionalised tricalcium silicate cement as an osteostatin delivery platform
Sivaprakash Rajasekharan (Belgium)

11:40 - 11:50 **OP 7.02** Class II Composite Resin Restorations in Carious Lesions of Primary Molars with or without Pulpotomy. A 24-Month Prospective Comparative Study.
Myrto Alevra (Greece)

11:50 - 12:00 **OP 7.03** Influence of LED Spectral Emission on Polymerisation Efficiency of a TPO-Initiated Radiopaque Resin Infiltrant
Faisal Bin Hayyan (Saudi Arabia)

12:00 - 12:10 **OP 7.04** Development of a 3D-Printed Bioreactor System for Long-Term Ex Vivo Culture of Vital Human Molars
Reda Banon (Belgium)

12:10 - 12:20 **OP 7.05** Effect of Simulated Gastric Acid on the Microhardness of Fissure Sealants
Ceren Sağlam (Turkey)

12:20 - 12:30 **OP 7.06** Non-Invasive, Template-Assisted Direct Composite Veneers for Masking Anterior MIH Defects: 12-Month Results
Kardelen Demirel (Turkey)

12:30 - 12:40 **OP 7.07** Superior therapeutic efficacy of apoptotic extracellular vesicles derived from stem cells of the apical papilla: a proteomic comparison analysis with bone marrow mesenchymal stem cells
Yu Wang (Hong Kong)

12:40 - 12:50 **OP 7.08** In Vitro Assessment of the Discoloration Effects of Silver Diamine Fluoride on Primary Dentin
Figen Seymen (Turkey)

Scientific Programme

Friday, July 03, 2026 ● ● ●

12:50 - 13:00 **OP 7.09** **Effects of Dietary Supplement Syrups on the Color Stability and Translucency of Resin-Based Restorative Materials Used in Pediatric Dentistry**
Zehra Aksu (Turkey)

ROOM 4

11:30 - 12:50 **Oral Presentations Session 08**
Moderators: Joanna May (United Kingdom), Richard Balmer (United Kingdom)

11:30 - 11:40 **OP 8.01** **Reducing Non-Attendance and Supporting Service Improvement in Paediatric Dental General Anaesthesia Attendance: An Audit of Was Not Brought and Cancellation Rates Across Community Dental Services (CDS-CIC) Bedfordshire**
Stephanie Agar (United Kingdom)

11:40 - 11:50 **OP 8.02** **Impact of the PaFein+ (Pain-free Dentistry for Children) Educational Project in Italy: A Prospective Pre-Post Study Among Dental Professionals**
Annelyse Garret (Italy)

11:50 - 12:00 **OP 8.03** **Should Artificial Intelligence and Robotic Technologies Be Integrated into Dental Education? Perspectives of Dental Professionals and Students from a Cross-Sectional Survey**
Oguz Burak Girginel (Turkey)

12:00 - 12:10 **OP 8.04** **Quantifying Rising Patient Complexity and Its Effect on Paediatric Dental General Anaesthetic: A Service Evaluation**
Faryal Faqir (United Kingdom)

12:10 - 12:20 **OP 8.05** **Beyond Disability: Dental Caries Experience in Children Living with Cerebral Palsy in New Zealand**
Alexandra Sorhage (New Zealand)

12:20 - 12:30 **OP 8.06** **Mothers' knowledge and self-reported performance regarding the management of traumatic dental injuries and associated factors.**
Aya Al Shammari (United Arab Emirates)

12:30 - 12:40 **OP 8.07** **Diagnostic Yield of Genetic Testing in Patients with a Clinical Diagnosis of Amelogenesis Imperfecta at the Royal London Dental Hospital**
Sajida Mamdani (United Kingdom)

12:40 - 12:50 **OP 8.08** **Ten Years, Rare Teeth: NBAS Syndrome in Paediatric Dentistry**
Richa Rughani (United Kingdom)

13:00-14:00 **LUNCH BREAK & EXHIBITION**

HALL 1A

13:00-14:00 **SPONSORED Symposium** (see page 56)

Scientific Programme

● ● ● Friday, July 03, 2026

📍 HALL 1A

14:00-15:30	EAPD Satellite Symposium: Non-invasive procedures to optimize the aesthetics of MIH-Teeth Moderator: Marlies Elfrink (Netherlands)
14:00 - 14:20	Treatment planning for MIH-affected anterior teeth – what needs to be considered David Manton (Netherlands)
14:20 - 14:40	Non-invasive procedures for aesthetic rehabilitation Norbert Krämer (Germany)
14:40 - 15:00	Restoration of anterior teeth Roland Frankenberger (Germany)
15:00 - 15:20	EAPD - MIH consensus report summary Sotiria Gizani (Greece)
15:20 - 15:30	Discussion

📍 HALL 1C

14:00-15:00	Oral Presentations Session 09 Moderators: Zoran Mandinic (Serbia), Dominique Declerck (Belgium), Eirini Stratigaki (Switzerland)
	EAPD SVK Sedation Award
14:00 - 14:12	OP 9.01 Physiological Stress Responses to Protective Stabilization in Children with Autism Spectrum Disorders During Dental Treatment Silvia Cirio (Italy)
14:12 - 14:24	OP 9.02 Assessing the Anxiolytic Efficacy of Nitrous Oxide Inhalation Sedation in Paediatric Patients: A Clinical Study Georgia Seirinoglou (Greece)
14:24 - 14:34	OP 9.03 Caries Experience and Oral Health-Related Quality of Life: A Cross-Sectional Study of Schoolchildren in Sirte, Libya Arheiam Arheiam (Libya)
14:34 - 14:44	OP 9.04 Oral health of children and adolescents with type 1 diabetes mellitus: an umbrella review Athanasia Pappa (Greece)
14:44 - 14:54	OP 9.05 Non-traumatic dental condition attendances to the Paediatric Emergency Department: A 2025 service evaluation, Liverpool, England Danya Tahir (United Kingdom)

📍 HALL 1C

14:00-15:00	Poster Discussion Session 03 Moderators: Greig Taylor (United Kingdom), Hannah Walsh (United Kingdom)
14:00 - 14:05	OPD 3.01 Repeat paediatric dental general anaesthesia in Nottinghamshire and Derbyshire community dental services, 2022–2024 Sahir Ladha (United Kingdom)
14:05 - 14:10	OPD 3.02 Development and Validation of a Questionnaire Assessing Dentists' Knowledge, Attitudes, and Practices on Transition of Adolescents with Special Needs Girijaa Vathi Nachimuthu (Malaysia)

Scientific Programme

Friday, July 03, 2026

14:10 - 14:15	OPD 3.03	Availability of dental offices seeing children and patients with special health care needs in Canada Vivianne Cruz De Jesus (Canada)
14:15 - 14:20	OPD 3.04	Retrospective Evaluation of Cone-Beam Computed Tomography Use in Pediatric Patients Merve Akar (Turkey)
14:20 - 14:25	OPD 3.05	Molar Incisor Hypomineralisation (MIH) and Hypomineralised Second Primary Molars (HSPM): A National Epidemiological Study among Cypriot Schoolchildren Panayioula Lambrou (Cyprus)
14:25 - 14:30	OPD 3.06	The causal effect of premature extraction of primary teeth under general anaesthetic on orthodontic treatment need among children participating in a longitudinal birth cohort Peter Day (United Kingdom)
14:30 - 14:35	OPD 3.08	Molar Incisor Hypomineralisation: Knowledge, Perceptions and Clinical Practices of Dental Therapists and Oral Health Therapists in New Zealand Mira Yang (New Zealand)
14:35 - 14:40	OPD 3.09	Epidemiological Profile of Tooth Number Anomalies Among Paediatric Dental Patients at a Malaysian Dental Teaching Institution : An 8-Year Retrospective Analysis Ainul Husna Binti Abd Latib (Malaysia)
14:40 - 14:45	OPD 3.10	Evaluation of the effectiveness of teledentistry on diagnostic accuracy and treatment planning among Jordanian dentists Jumana Sabbarini (Jordan)
14:45 - 14:50	OPD 3.11	Risk Factors for Repeat Paediatric Dental General Anaesthesia: A Retrospective Case-Control Study Lily Duffy (United Kingdom)
14:50 - 14:55	OPD 3.12	Investigation of Oral Health Knowledge, Attitude and Practice of Parents: A Cross-Sectional Study in Kuala Lumpur Sharlene Devi Ehambaranathan (Malaysia)
14:55 - 15:00	OPD 3.13	The Impact of Behavioural Management and Inhalation Sedation on General Anaesthetic Escalation in a Community Paediatric Cohort Jonathan Daniel Kennedy (United Kingdom)

ROOM 4

14:00-15:00	Poster Discussion Session 04 Moderators: Kay Hood (United Kingdom), Judi Humphreys (United Kingdom)	
14:00 - 14:05	OPD 4.01	Severe immunocompromised periodontitis in a 3 year old with familial acute myeloid leukemia: a paediatric dental challenge. Chloë Sterkens (Belgium)
14:05 - 14:10	OPD 4.02	Beyond Lip Swelling: Isolated Gingival Orofacial Granulomatosis in a Child Samuel Marshall (United Kingdom)
14:10 - 14:15	OPD 4.03	Management of an ameloblastoma of the maxilla in a paediatric patient: A Case Report Jesutomisin Aiyere (United Kingdom)

Scientific Programme

● ● ● Friday, July 03, 2026

- 14:15 – 14:20 **OPD 4.04** Long-standing gingival enlargement in a 14-year-old: a clinicopathological case
Alanoud Alanazi (United Kingdom)
- 14:20 – 14:25 **OPD 4.05** From Dental Abscess to Osteomyelitis: A Diagnostic Challenge in a Paediatric Patient
Angela Sinadinou (United Kingdom)
- 14:25 – 14:30 **OPD 4.06** Venous microcystic lymphatic malformation in a teenage patient
Sandeep Acharya (United Kingdom)
- 14:30 – 14:35 **OPD 4.07** Goltz Syndrome – a multidisciplinary approach to dental management.
Amy Carroll (United Kingdom)
- 14:35 – 14:40 **OPD 4.08** Dental management of ectodermal dysplasia in paediatric patients: a narrative review
Cinzia Maspero (Italy)
- 14:40 – 14:45 **OPD 4.09** Dental Management of a Paediatric Patient with CHARGE Syndrome: A Case Report
Badriya Alzaabi (Kuwait)
- 14:45 – 14:50 **OPD 4.10** Enamel Renal Syndrome in an Adolescent with Failed Eruption: Diagnostic and Multidisciplinary Management Challenges
Ellen Van Kets (Belgium)
- 14:50 – 14:55 **OPD 4.11** Hypophosphatasia presenting as early loss of primary teeth
Zainab Alqattan (United Kingdom)
- 14:55 – 15:00 **OPD 4.12** Luxation of two permanent maxillary central incisors during active orthodontic treatment
Silke Anke Beckers (Belgium)

📍 HALL 1B

15:00-16:00

Oral Presentations Session 10

Moderators: Peter Day (United Kingdom), Nathalie Gallichan (United Kingdom)

- 15:00 – 15:10 **OP 10.01** Impact of Mechanical Ventilation on Oral Health–Related Quality of Life: A Pilot Study
Aslı Yüksel (Turkey)
- 15:10 – 15:20 **OP 10.02** An Overlooked Trigger: Sodium Benzoate in Ibuprofen and Persistent Orofacial Granulomatosis
Catherine Boutros (United Kingdom)
- 15:20 – 15:30 **OP 10.03** Improving Documentation Standards: An Audit of the Paediatric Dental Trauma Clinic at King's College Hospital
Areej Mehdi (United Kingdom)
- 15:30 – 15:40 **OP 10.04** Any RIME or Reason? A Case of Reactive Infectious Mucocutaneous Eruption (RIME) in an Adolescent Male
Francesca Hodgetts (United Kingdom)
- 15:40 – 15:50 **OP 10.05** Service Evaluation of a Joint Orthodontic–Paediatric–Restorative–Oral Surgery Multidisciplinary Clinic for Management of Complex Dental Cases at a UK Dental Hospital
Giulia Pintaritsch (United Kingdom)

Scientific Programme

Friday, July 03, 2026

15:50 - 16:00 **OP 10.06** Clinical efficacy of in-situ crown reattachment technique combined with pulpotomy in the treatment of complicated crown-root fractures of young permanent anterior teeth
XueLong Su (China)

HALL 1C

15:00-16:05 **Poster Discussion Session 05**
Moderators: Janine Bailey (United Kingdom), Blend Hamza (Switzerland)

15:00 - 15:05 **OPD 5.01** Clinical Experiences, Barriers and Challenges in Paediatric Dental Trauma Management among General Dental Practitioners in Malaysia: A Qualitative Study
Siti Nursyifa' Qistina Suhaimi (Malaysia)

15:05 - 15:10 **OPD 5.02** Stepwise Management of a Sub-crestal Complicated Crown-Root Fracture in the Aesthetic Zone of an Adolescent: A Case-Based Decision Pathway
Adibah Jamil (Malaysia)

15:10 - 15:15 **OPD 5.03** Clinical Management of Cervical Internal Resorption in Permanent Incisors: A Case Report
Živilė Matulaitienė (Lithuania)

15:15 - 15:20 **OPD 5.04** Preserving a growing smile: A splinting challenge in the mixed dentition
Lisa Clarke (United Kingdom)

15:20 - 15:25 **OPD 5.05** CBCT-informed management of a necrotic immature incisor with crown-root fracture and guarded prognosis
Sam Lowet (Belgium)

15:25 - 15:30 **OPD 5.06** Reasons for Tooth Loss among Danish Children and Adolescents with Traumatic Dental Injuries: An Outcome-Selected Retrospective Descriptive Study
Mathilde Hansen (Denmark)

15:30 - 15:35 **OPD 5.07** Management of an Alveolar Fracture in Primary Dentition: Case Report
Simge Bayraktar (Turkey)

15:35 - 15:40 **OPD 5.08** Arrested root development and abnormal enamel of a mandibular first permanent molar following facial trauma at 13 months old: Case report of a 7-year-old child
Ellie Emery (United Kingdom)

15:40 - 15:45 **OPD 5.09** Intraligamentary Anesthesia In Pediatric Patients: Is It An Effective Technique? A Systematic Review and Meta-Analysis
Claudia Salerno (Italy)

15:45 - 15:50 **OPD 5.10** Conservative Management of Lateral Luxation and Root Fracture with Closed Apex: A Case-Based Approach
Beste Özgür (Turkey)

15:50 - 15:55 **OPD 5.11** Clinical Management of Traumatic Lip Injury in a Paediatric Patient with Autoimmune Encephalitis: A Case Report
Saleh Alshaya (United Kingdom)

15:55 - 16:00 **OPD 5.12** Horizontal root fracture - a favourable healing outcome
Sadaf Naqvi (United Kingdom)

Scientific Programme

● ● ● Friday, July 03, 2026

16:00 – 16:05	OPD 5.12	Parental Awareness of Traumatic Dental Injuries in Children: Emergency Management, Post-Operative Care and Prevention Begüm Mutlu (Turkey)
ROOM 4		
15:00–16:00		Poster Discussion Session 06 Moderators: Rona Leith (Ireland), Laura Gartshore (United Kingdom)
15:00 – 15:05	OPD 6.01	More Than an Enamel Defect: Amelogenesis Imperfecta Associated with Alopecia Areata Nadia Razavi (United Kingdom)
15:05 – 15:10	OPD 6.02	Intentional Surgical Repositioning of an Inverted, Impacted, and Dilacerated Maxillary Central Incisor: A Case Report in a Paediatric Patient with MIH Rana Yalcinkaya (Turkey)
15:10 – 15:15	OPD 6.03	Small Teeth, Big Challenges: Dental Management of Hypoplastic Amelogenesis Imperfecta in a 9-year-old Child Aisha Alrefaee (United Kingdom)
15:15 – 15:20	OPD 6.04	Hybrid CAD/CAM Composite Restorations for Molar-Incisor Hypomineralisation in Children: A Case Report Seray Sahin (Turkey)
15:20 – 15:25	OPD 6.05	Oral Microbiota in Association with Enamel Defects: A Scoping Review Razan AlSindi (United Kingdom)
15:25 – 15:30	OPD 6.06	Multiple mesiodentes in both primary and permanent dentition. Emmanuelle De Bie (Belgium)
15:30 – 15:35	OPD 6.07	Multidisciplinary management of an adolescent with dens evaginatus Shekhah Almutairi (United Kingdom)
15:35 – 15:40	OPD 6.08	Amelogenesis Imperfecta Type I: Two Case Reports Melek Gerede (Turkey)
15:40 – 15:45	OPD 6.09	From pitted to polished: Minimally invasive management of severe dental fluorosis in an 8-year-old child: A case report Nahla Ahmed Aly (Egypt)
15:45 – 15:50	OPD 6.10	Esthetic and Functional Rehabilitation of Amelogenesis Imperfecta in a Pediatric Patient: A 2-Year Follow-Up Case Report Dariya Ovsyanytska (Turkey)
15:50 – 15:55	OPD 6.11	Spontaneous eruption of a severely infraoccluded, deciduous mandibular first molar: Case report of a 6-year-old child. Dannilea Rufaizal (United Kingdom)
15:55 – 16:00	OPD 6.12	Auto-transplantation of Developing Teeth: A Case Report Alia Mohd Suhaimi (United Kingdom)

Scientific Programme

Friday, July 03, 2026

📍 HALL 1A

16:00-16:30 **SPONSORED Symposium** (see page 56)

16:00-16:30 **LUNCH BREAK & EXHIBITION**

📍 HALL 1A

16:30-17:40 **EAPD Satellite Symposium: Orthodontics in paediatric dentistry**

16:30 - 17:00 **Can we use aligners in patients with structural dental defects?**
Maria Cadenas de Liano Perula (Belgium)

17:00 - 17:30 **The use of three-dimensional photography in modern orthodontics**
Georgios Kanavakis (Greece)

17:30 - 17:40 **Discussion**

📍 HALL 1B

16:30-17:30 **Poster Discussion Session 07**
Moderators: Katherine O'Donnell (United Kingdom), Maria Anderson (Sweden)

16:30 - 16:35 **OPD 7.01** **BRIDGE THE MIDDLE: Collaborative Practice Between Nursing and Dental Teams to Improve Oral Health in the Hospitalised Child**
Helen Morley (United Kingdom)

16:35 - 16:40 **OPD 7.02** **Effect of Plaque-Disclosing Toothpaste on Parental Attitudes Toward Parent-Assisted Toothbrushing in Preschool Children**
Norashikin Binti Abu Bakar (Malaysia)

16:40 - 16:45 **OPD 7.03** **Rural-Urban Inequalities in Dental Visits among Libyan Schoolchildren**
Osama Ahmadi (Libya)

16:45 - 16:50 **OPD 7.04** **Oral Hygiene Status and Child Behavioural Acceptance of Parental-Assisted Toothbrushing Using Plaque-Disclosing Toothpaste in Preschool Children**
Nurhani Izazie Mohd Fauzi (Malaysia)

16:50 - 16:55 **OPD 7.05** **Knowledge of Dental Professionals Regarding Preventive Dental Care in Clinical Practice in Serbia**
Zoran Mandinic (Serbia)

16:55 - 17:00 **OPD 7.06** **Evaluation of Community-Based Oral Health Parent Champion Programme using the RE-AIM Framework**
Lamis El Sharkasi (United Kingdom)

17:00 - 17:05 **OPD 7.07** **In Vitro Evaluation of the Anti-Erosive Effect of CPP-ACPF, Self-Assembling Peptide P11-4 and Nano-Hydroxyapatite Using Surface Microhardness Analysis**
Tanya Nihtyanova (Bulgaria)

17:05 - 17:10 **OPD 7.08** **Oral Health Knowledge, Facilitators and Barriers Against Oral Health Promotion among Staff Members in Early Intervention Centres for Children with Special Healthcare Needs: A Mixed Method Analysis**
Bing Liang Tan (Singapore)

Scientific Programme

● ● ● Friday, July 03, 2026

17:10 - 17:15	OPD 7.09	Composition Analysis and Pediatric Safety Assessment of Teething Gels Marketed in Turkey Selena Su Deniz (Turkey)
17:15 - 17:20	OPD 7.10	The role of Chios mastic (<i>Pistacia Lentiscus</i> var. Chia) products on oral health. A systematic review. Pinelopi Kikila (Greece)
17:20 - 17:25	OPD 7.11	A Novel Chlorhexidine-Free Pediatric Mouthwash with Comparable Antimicrobial Activity Against Periodontal Pathogens Tanya Zalamova-Dineva (Bulgaria)
17:25 - 17:30	OPD 7.12	Development and validation of 'parental satisfaction with knee-to-kneedental examination' (PSKTK) scale: examining relation to dentist's estimation and parental sense of competence Avia Fux-Noy (Israel)

📍 HALL 1C

16:30-17:30	Poster Discussion Session 08 Moderators: Marlies Elfrink (Netherlands), George Tsilingaridis (Sweden), David Manton (Netherlands)
-------------	---

EAPD Clinical Cases Poster Award

16:30 - 16:37	OPD 8.01	Complete Pulpotomy in Symptomatic Permanent Molars: A 2-Year Follow-Up Case Series Refia Beyza Kalkınç (Turkey)
16:37 - 16:44	OPD 8.02	Early Comprehensive Rehabilitation of a Child with Hypohidrotic Ectodermal Dysplasia: An Interdisciplinary Case Report Anthia Papanastasiou (Greece)
16:44 - 16:51	OPD 8.03	When the Mouth Speaks First": Oral manifestations in pediatric Crohn. A case report Maria-Despina Karadimitriou (Greece)
16:51 - 16:58	OPD 8.04	Conservative Management of a Pediatric Mandibular Parasymphysis Fracture Using a Digital Workflow and Acrylic Cap Splint: A Case Report Neslihan Yilmaz (Turkey)
16:58 - 17:05	OPD 8.05	Conservative Multidisciplinary Management of Complicated Crown-Root Fractures in Pediatric Patients: A 24-Month Follow-Up of Two Cases Gulbahar Gul Hayta (Turkey)
17:05 - 17:12	OPD 8.06	Multidisciplinary management of enamel renal syndrome: a case series of three paediatric patients with FAM20A variants Jakob Van Acker (Belgium)
17:12 - 17:17	OPD 8.07	Multidisciplinary dental management of a child with APECED syndrome and chronological enamel hypoplasia: a case report Katie Juniper (United Kingdom)

Scientific Programme

Friday, July 03, 2026

- 17:17 – 17:22 **OPD 8.08** **Oculodentodigital Dysplasia: A Rare Genetic Disorder with Orofacial and Dental Manifestations – Case Report**
Greta Petruškevičiūtė (Lithuania)
- 17:22 – 17:27 **OPD 8.09** **Dental Rehabilitation With Implants in a 6-Year-Old Child With Ectodermal Dysplasia: A Case Report**
Laura Muresan-Vintila (France)
- 17:27 – 17:32 **OPD 8.10** **Dental Management of a Paediatric Patient with Moebius Syndrome.**
Eftychia Lampraki (Greece)

ROOM 4

- 16:30–17:35 **Poster Discussion Session 09**
Moderators: Raghd Albader (United Kingdom), Joana Monteiro (United Kingdom)
- 16:30 – 16:35 **OPD 9.01** **Salivary Evaluation of hBD-1 in Pediatric Patients With ECC, Pre- and Post-Dental Treatment, and Its Association With ICDAS II**
Areli Guadalupe Flores Carrillo (Mexico)
- 16:35 – 16:40 **OPD 9.02** **Evaluation of Different Caries Detection Methods for Proximal Lesions in Primary Molars**
Hazal Özcan (Turkey)
- 16:40 – 16:45 **OPD 9.03** **Biomimetic Enamel Regeneration in a 12-Year-Old Patient - Case Report**
Ani Belcheva (Bulgaria)
- 16:45 – 16:50 **OPD 9.04** **Assessment of pH and Potential Cariogenic Implications of Commercial Complementary Infant Foods**
Ceren Kaplan (Turkey)
- 16:50 – 16:55 **OPD 9.05** **Salivary Superoxide Dismutase (SOD) as an Antioxidant Response Marker in Children with Severe Early Childhood Caries (S-ECC): An ELISA-Based Case-Control Study**
Cristina Bica (Romania)
- 16:55 – 17:00 **OPD 9.06** **Early Childhood Caries and smoking behaviours of household members among preschool children**
Pui Ying Phoebe Lam (Hong Kong)
- 17:00 – 17:05 **OPD 9.07** **Oral health behavior and knowledge of early childhood caries among Lithuanian mothers with toddlers**
Sandra Petrauskiene (Lithuania)
- 17:05 – 17:10 **OPD 9.08** **Accuracy of Register-Based Caries Data in 19-Year-Olds: Validation of the Swedish Quality Register for Caries and Periodontal Disease (SKaPa)**
Tita Kirkinen (Sweden)
- 17:10 – 17:15 **OPD 9.09** **Management of erosive tooth surface loss in a 10-year-old patient**
Faisal Alsaif (United Kingdom)
- 17:15 – 17:20 **OPD 9.10** **Utilising a stepwise caries removal technique to restore an extensively carious permanent molar with Biodentine™**
Mohammad Alfozan (United Kingdom)

Scientific Programme

● ● ● Friday, July 03, 2026

17:20 - 17:25 **OPD 9.11** Oral Manifestations in Griscelli Syndrome Type 2: A Rare Case Report
Elif Erbaş (Turkey)

17:25 - 17:30 **OPD 9.12** Prosthodontic and Functional Challenges When Managing Anodontia Associated with Ectodermal Dysplasia.
Dhruvi Patel (United Kingdom)

17:30 - 17:35 **OPD 9.13** Surgical approach in a pediatric patient with Ellis-van Creveld syndrome: A clinical case report.
Alejandra Moreno Reyes (Mexico)

📍 HALL 1B

17:30-18:45 **Oral Presentations Session 11**
Moderators: Sotiria Gizani (Greece), Ferranti Wong (United Kingdom), Norbert Krämer (Germany)

EAPD Young Scientist Research Award

17:30 - 17:42 **OP 11.01** Dentists' Knowledge and Diagnostic Confidence in Molar-Incisor Hypomineralization: A Multicountry Survey Across Income Levels
Marwa Baraka (Egypt)

17:42 - 17:54 **OP 11.02** Pectin's Impact on SHED Stem Cells Viability and Mineralisation for Regenerative Endodontic Applications
Abdulrahman Almalki (United Kingdom)

17:54 - 18:06 **OP 11.03** Micro-shear bond strength of light-cured and dual-cured universal adhesives to primary and permanent dentin: An in vitro study
Ektoros Fousekis (Greece)

18:06 - 18:18 **OP 11.04** Dental Manifestations and Genotype-Phenotype Associations in Children with Osteogenesis Imperfecta
Nur Syaheera Binti Tajuddin (United Kingdom)

18:18 - 18:30 **OP 11.05** Can behavior and gag reflex during intraoral radiographic examination predict cooperation during dental treatment in children?
Elisavet Charitonidou (Greece)

18:30 - 18:42 **OP 11.06** Fabrication of PCL-based Zinc Oxide Eugenol point for root canal sealing of primary teeth
Maria-Eleni Ioannou (Greece)

📍 HALL 1B

17:30-18:30 **Poster Discussion Session 10**
Moderators: Shannu Bhatia (United Kingdom), Nada Al Hafidh (United Kingdom)

17:30 - 17:35 **OPD 10.01** Integrating paediatric dentistry within metabolic bone services: a four-year service evaluation
Orion O'Brien (United Kingdom)

Scientific Programme

Friday, July 03, 2026

17:35 - 17:40	OPD 10.02	Prevalence and Clinical Characteristics of Enamel Defects in Patients with Cleft Lip and Palate: A Case Series Carolina Ruiz Duque (Spain)
17:40 - 17:45	OPD 10.03	What is the clinical performance of a fluoride-releasing, resin-based sealant applied with universal adhesive on first permanent molars with molar-incisor hypomineralisation (MIH)? Stefanie Amend (Germany)
17:45 - 17:50	OPD 10.04	Planning orthodontic care in children with X-linked hypophosphataemia: multidisciplinary and shared decision-making Norah Flannigan (United Kingdom)
17:50 - 17:55	OPD 10.05	A Multidisciplinary Approach to Dental Care Under General Anaesthetic in a Child with Complex Congenital Heart Disease Jasmin Meehan (United Kingdom)
17:55 - 18:00	OPD 10.06	Multiple progressive idiopathic root resorptions in an otherwise healthy adolescent. A case report Arne Jacobsen (Norway)
18:00 - 18:05	OPD 10.07	Comprehensive Clinical Management of an 11-year-old boy with Taurodontism, Molar-Incisor Hypomineralization (MIH), and Hypomineralization of Other Permanent Teeth (HOPT) Dimitra Chatzimatthaiou (Greece)
18:05 - 18:10	OPD 10.08	Diagnosing Structural Dental Anomalies: Knowledge, Training and O-Rares Network Awareness in France Emmanuelle Noirrit-Esclassan (France)
18:10 - 18:15	OPD 10.09	A case report of molar-incisor malformation management using an Essix splint Sofia Sotiropoulou (Greece)
18:15 - 18:20	OPD 10.10	Use of Lasers in the Management of Dentin Hypersensitivity and Its Impact on the Quality of Life of Children with Molar-Incisor Hypomineralization Giovanna Bueno Marinho (Brazil)
18:20 - 18:25	OPD 10.11	Temporal management of amelogenesis imperfecta in a growing child: A case report. Dionysios Kolias (Netherlands)

ROOM 4

17:30-18:35	Poster Discussion Session 11 Moderators: Kyriaki Seremidi (Greece), Emmanuelle Noirrit-Esclassan (France)	
17:30 - 17:35	OPD 11.01	Development of a Digital Clinical Interface for Early Childhood Caries Risk Prediction Incorporating Machine Learning Frameworks Umme-Shaima' Binti Ayub (Malaysia)
17:35 - 17:40	OPD 11.02	Mini Mouth Care Matters: Implementation within Alder Hey Children's Hospital Laura Shuter (United Kingdom)
17:40 - 17:45	OPD 11.03	Oral Health Interventions in Early Years Settings: A Systematic Review Rama Midani (United Kingdom)

Scientific Programme

● ● ● Friday, July 03, 2026

- 17:45 - 17:50 **OPD 11.04** **Oral Health Mobile Applications for children and adolescents: A Systematic Review**
Katerina Georgiou (Greece)
- 17:50 - 17:55 **OPD 11.05** **Quality Improvement project assessing the pathway for paediatric dental patients attending Child Dental Health (CDH) undergoing Bone Modifying Agent treatment (BMA)**
Constance Hardwick (United Kingdom)
- 17:55 - 18:00 **OPD 11.06** **Factors Influencing the Reliability of Oxidative Stress Measurements in Saliva Samples**
Aikaterini Iliana Georgiadou (Greece)
- 18:00 - 18:05 **OPD 11.07** **Do Temperament Traits Influence Oral Health Behaviors? Evidence from Preschool Children with Early Childhood Caries: A Cross-Sectional Pilot Study**
Betul Guzelyuz (Turkey)
- 18:05 - 18:10 **OPD 11.08** **The uses of vital pulp therapy in the management of deep caries in posterior permanent teeth in children and young adult's cross-country survey**
Raghd Albader (United Kingdom)
- 18:10 - 18:15 **OPD 11.09** **Prevalence of Pulp Therapy Failure in Primary Teeth Treated under General Anesthesia: A Systematic Review and Meta-Analysis**
Kornelija Rogalnikovaite (Lithuania)
- 18:15 - 18:20 **OPD 11.10** **Cleft lip with or without palate in seven countries with two incomes levels**
Manal Almalik (Saudi Arabia)
- 18:20 - 18:25 **OPD 11.11** **Management of Deep Brown MIH Opacities on Maxillary Central Incisors Using a Modified Resin Infiltration Protocol: A Case Report**
Maria Tsivouraki (Greece)
- 18:25 - 18:30 **OPD 11.12** **Management of Non-Syndromic Oligodontia during Craniofacial Development: A 4-Year Follow-Up Case Report**
Karely Ivanova Figueroa Saucedo (Mexico)
- 18:30 - 18:35 **OPD 11.12** **Aicardi-Goutières Syndrome: a clinical case**
Inês Nascimento (Portugal)

📍 HALL 1A

17:40-18:25

Lecture - Kalaiarasu Peariasamy
Moderator: Rita Cauwels (Belgium)

Interdisciplinary Cleft and Oral Surgery in Children
Kalaiarasu Peariasamy (Malaysia)

Scientific Programme

Saturday, July 04, 2026

📍 HALL 1A

09:00-11:00 **EAPD Main Symposium 3: Safeguarding**
Moderator: Dominique Declerck (Belgium)

09:00 - 09:40 **The Normalisation of Neglect: What has it to do with Paediatric Dentistry?**
Julie Taylor (United Kingdom)

09:40 - 10:05 **Child abuse and neglect in dental education: translating teaching into Clinical practice**
Therese Kvist (Australia)

10:05 - 10:45 **Child Protection in Dentistry: lessons from an ever-changing landscape**
Jenny Harris (United Kingdom)

10:45 - 11:00 **Discussion**

11:00-11:30 **MORNING BREAK & EXHIBITION**

📍 HALL 1A

11:30-12:15 **ACFF/EAPD Lecture - Tim Newton**
Moderator: Susan Parekh (United Kingdom)

Promoting a Caries Free Future: The role of behaviour change
Tim Newton (United Kingdom)

📍 HALL 1A

12:15-13:00 **Lecture - Michalis Diomataris**
Moderator: Susan Parekh (United Kingdom)

Dental Photography through the Bio-Emulation lens
Michalis Diomataris (Greece)

📍 HALL 1A

13:00-13:45 **SPONSORED LECTURE** (see page 56)

13:45-14:15 **AFTERNOON BREAK & EXHIBITION**

📍 HALL 1A

14:15-15:15 **CLOSING CEREMONY AND AWARDS**

Scientific Programme

● ● ● Posters with no Discussion

PND 001	Co-occurrence of cariogenic microflora in children with ECC and their mothers Michaela Bartošová (Czech Republic)
PND 002	Management of a major dental trauma Farah Faqir (United Kingdom)
PND 003	Cephalometric and Orofacial Characteristics of Algerian School Children: Clinical Markers of Mouth Breathing and Vertical Growth Pattern Fouzi Boukhazani (Algeria)
PND 004	Picture Exchange Communication System (PECS) in low-compliance children with limited or no functional speech in an Italian paediatric dental setting Ludovica Antonella Macrì (Italy)
PND 005	Multidisciplinary Management of a Patient with Impacted Maxillary Canines and Its Associated Complications Yen Lin (United Kingdom)
PND 006	VR Goggles & General Anaesthetic Management Case Louise Davidson (United Kingdom)
PND 007	Sodium Hypochlorite Extrusion in Paediatric Patients- a complication of endodontic management of traumatised teeth. Julie Nash (United Kingdom)
PND 008	Service evaluation of root canal treatments (RCTs) under general anaesthesia (GA) in paediatric patients at the Royal London Hospital (RLH). Anna Maxwell (United Kingdom)
PND 009	More Than a Missing Tooth: A Solitary Median Maxillary Central Incisor in a Child Haya Alfouzan (United Kingdom)
PND 010	Improving Safeguarding in Primary Dental Care Through a 'Was Not Brought' Pathway Yasmin Javadian (United Kingdom)
PND 011	A Puzzling Smile: Multidisciplinary Planning for a Child with Multiple Dental Anomalies Olivia Thompson (United Kingdom)
PND 012	Dental trauma care during fixed orthodontic treatment in an adolescent cardiac patient Georgia Hallett (United Kingdom)
PND 013	Hall Technique Versus Conventional Technique for placement of pre-formed Stainless Steel Crowns in MIH-Affected First Permanent Molars. Aditi Kapur (India)
PND 014	Comprehensive Dental Management of Severe Early Childhood Caries in a Preschool Child with Autism (4Y. 11M boy) Sara Alhowaishel (United Kingdom)
PND 015	Audit of Bradford District Care NHS Foundation Trust Community Dental Service's Compliance with Bradford District Care NHS Foundation Trust Paediatric Dental Neglect Guidance Linzi Maybin (United Kingdom)
PND 016	Region-wide audit: radiograph presence during paediatric general anaesthetic journeys Puja Kalawadia (United Kingdom)
PND 017	Management of sensitivity during treatment for a patient with hypocalcified Amelogenesis Imperfecta Alice Rigby (United Kingdom)
PND 018	Management of Hypocalcification Amelogenesis Imperfecta Arwa Khayat (United Kingdom)
PND 019	Managing Paediatric Anxiety about Dental Treatment Under General Anaesthesia through Illustrated Narratives Wei Sea Mavis Ting (United Kingdom)
PND 020	Getting the Message Right: Keeping Patient Care in Sight Danah Almadhi (United Kingdom)

Scientific Programme

Posters with no Discussion

PND 021	Management of non-vital maxillary central incisors following dental trauma Ali Alfuraih (United Kingdom)
PND 022	From Trauma to Transformation: Rehabilitation of Non-Vital Permanent Incisors Using Bioceramic Apexification and Aesthetic Restorative Techniques Amenah AlSheikh (British Virgin Islands)
PND 023	Treatment of dental caries for child with history of cleft lip and palate under local anaesthesia Dominic Chow (Hong Kong)
PND 024	Double Decoronation: A Multi-Disciplinary Approach to Managing Ankylosis of Upper Central Incisors Ella Holden (United Kingdom)
PND 025	The Tooth That Wasn't the Problem: A Case Report Rosamund Johnson (United Kingdom)
PND 026	Management of an unerupted maxillary incisor associated with a supernumerary tooth in a patient with molar-incisor-hypomineralisation and dental caries Tsz Wo Colin Lee (Hong Kong)
PND 027	Oral Health Status of Admitted High-Risk Children: A Pilot Study Pui Ling Chay (Singapore)
PND 028	Timing, Technique and Trauma: The Consequences of Delayed Reimplantation Dalal Alsallal (United Kingdom)
PND 029	Service Evaluation for Paediatric Patients Referred to the Surrey Community Dental Service Michelle Lo (United Kingdom)

About the Host City

1 Location and Population: Liverpool is a vibrant city in northwest England, situated along the eastern bank of the River Mersey. It is one of the UK's most dynamic urban centers, with a population of around 500,000 people. As the cultural heart of Merseyside, Liverpool is well-connected by road, rail, and air, making it an easily accessible destination for both domestic and international visitors.

2 Historical Significance: Liverpool's history is deeply rooted in maritime trade, earning it the title of "Gateway to the World" during the 18th and 19th centuries. It was one of the most important ports of the British Empire, playing a crucial role in global trade, migration, and commerce. The city is also a UNESCO World Heritage Site, recognized for its stunning waterfront and docklands, including the Albert Dock and Pier Head.

3 Architecture and Landmarks: Liverpool boasts an impressive blend of historical and modern architecture. Iconic landmarks include the Royal Liver Building, part of the "Three Graces," and the towering Liverpool Cathedral, one of the largest in the world. The city's regeneration projects have added striking modern structures like the Museum of Liverpool and the Echo Arena, enhancing its architectural appeal.

4 Cultural Hub: Liverpool is synonymous with music, famously known as the birthplace of The Beatles, whose legacy draws millions of fans annually. The city hosts numerous music festivals, live events, and exhibitions celebrating its musical heritage. Liverpool is also home to the Royal Liverpool Philharmonic

Orchestra and a thriving arts scene, with galleries like Tate Liverpool and the Walker Art Gallery showcasing both contemporary and classical works.

5 Education and Innovation: Liverpool is an academic hub with renowned institutions like the University of Liverpool, Liverpool John Moores University, and Liverpool Hope University. These institutions contribute to the city's reputation for research, innovation, and higher education.

6 Hospitality and Connectivity: Liverpool is known for its friendly people and warm hospitality. The city offers a wide range of accommodations, from luxury hotels to budget-friendly options, alongside diverse dining experiences featuring local and international cuisine. Liverpool John Lennon Airport connects the city to major destinations across Europe, while excellent rail and road networks link it to other parts of the UK.

7 Events and Tourism: Liverpool has established itself as a prime destination for international events and congresses, with venues like ACC Liverpool leading the way. The city's diverse attractions, from historic sites to cultural landmarks, ensure there's something for everyone, making it a memorable destination for both work and leisure.

Whether it's the rich history, vibrant culture, or state-of-the-art facilities, Liverpool offers an unforgettable experience as a host city.

General Information A-Z

ABSTRACTS

The accepted abstracts of EAPD 2026 are published in supplement issues of the European Archives of Paediatric Dentistry and the International Journal of Paediatric Dentistry.

You can read the abstracts of each oral/poster session on [this page](#).

ATM Facilities/Banks

The Liverpool Experience Campus (ex ACC Liverpool), venue of the EAPD 2026 Congress, is a largely cashless facility. ATMs are available in the nearby city centre, but no banks are located within the immediate venue area. Card and contactless payments are widely used across Liverpool.

CERTIFICATE OF ATTENDANCE

Certificates of attendance will be sent to all registered check in participants after the end of the Congress via email.

CONGRESS VENUE

Liverpool Experience Campus.

Convention Centre at Liverpool Experience Campus.

Kings Dock, Liverpool L3 4FP, United Kingdom

w: <https://lexliverpool.com/media-centre/latest-news/2026/liverpool-experience-campus-officially-launches/>

Arriving by train:

From Liverpool Lime Street Station, take a taxi (approx. 10 minutes) or use local bus services towards the city centre and Royal Albert Dock area. The venue is within walking distance from central Liverpool.

Arriving by air:

From Liverpool John Lennon Airport, taxis and airport buses operate regularly to the city centre (approx. 20–25 minutes). Alternatively, Manchester Airport is also well connected to Liverpool by direct train services (approx. 1 hour).

Arriving by car:

Follow signs to Liverpool city centre and Royal Albert Dock. ACC Liverpool is located on the waterfront and is well signposted. Parking facilities are available in nearby public car parks within walking distance of the venue.

General Information A-Z

CLOAKROOM

A Cloakroom will be operating at the Congress Venue, in close proximity with the Registration Desk (Level 0). Delegates' items (such as coats, poster cases, etc.) can be left at the Cloakroom only on a daily basis and during Congress operating hours.

CURRENCY / EXCHANGE

The currency used in the United Kingdom is the British Pound Sterling (GBP).

ELECTRICITY

The electrical power supply voltage in the United Kingdom is 230 volts (UK: 230V, US/Canada: 110–120V), using Type G plug sockets.

EXHIBITION OPERATING HOURS

The exhibition will run during the following hours:

Thursday, 2 July, 2026 | 09:00 – 17:30

Friday, 3 July, 2026 | 09:00 – 18:30

Saturday, 4 July 2026 | 09:00 – 14:00

EVALUATION

To continually improve and provide delegates with beneficial experiences, we will ask you to complete an evaluation form by sending you a link after the end of the Congress. This information is very important to us, and we appreciate your response in advance!

FACILITIES FOR PERSONS WITH IMPAIRED MOBILITY

The Congress Venue premises have been specifically designed to support the needs of persons with impaired mobility. All Congress areas are equipped with facilities that allow easy access

FOOD & BEVERAGES

Coffee and Lunch during official breaks is included in the delegate registration fee and will be served in the foyer of the 1st floor on the Pre-Symposium day and at the exhibition area (Hall 2A) during the main congress days.

INTERNET ACCESS

Free WiFi access will be available in all Congress areas throughout the duration of the EAPD 2026 Congress | Network: FREE WiFi

LANGUAGE

English is the official language of the Congress.

LIABILITY & INSURANCE

Registration fee does not include participant's insurance against personal accidents, sickness and cancellation by any party, theft, loss or damage to personal possessions. Participants are requested to make their own arrangements with respect to health and travel insurance. EAPD, and the Congress Organizer CONVIN S.A. accept no liability.

LOST & FOUND

A lost and found service is available at the Cloakroom, operating near the Registrations Desk during Congress hours.

General Information A-Z

PHOTOS

Photos of sessions and Congress areas might be taken during the EAPD 2026 congress. Attendees are advised to contact Registration desk, for any issue or objection with this respect

POLICIES

By registering for the EAPD 2026 Congress, you acknowledge your registration is subject to the EAPD 2026 Congress Policy.

REGISTRATION BADGES

Registration badges will be used during the EAPD 2026 Congress. Participants will receive their badges upon check-in at the Registrations Desk. For identification purposes and admission to scientific sessions, participants are requested to wear their badges at all times. Admission to Congress areas will not be allowed without badge identification.

REGISTRATION & HOSPITALITY DESK

Operating hours:

Wednesday, 1 July, 2026	08:00 – 19:00
Thursday, 2 July, 2026	08:00 – 18:30
Friday, 3 July, 2026	08:30 – 18:00
Saturday 4 July, 2026	08:30 – 14:00

SELF CHECK-IN STATIONS

Congress delegates who do not have outstanding payment may collect their name badges through the Self Check-in stations, located near the Registration Area, thus avoiding queues for badge pick up.

Speakers' Ready Room

Operating hours:

Thursday, 1 July, 2026	08:00 – 18:00
Thursday, 2 July, 2026	08:00 – 17:30
Friday, 3 July, 2026	08:00 – 18:00
Saturday 4 July, 2026	08:00 – 14:00

TIME

The United Kingdom operates on **UTC/GMT +1 hour (British Summer Time – BST)** during the summer period.

If you are unsure about the time difference, you may use online tools such as World Time Buddy to calculate it.

WEATHER

In Liverpool during early July (EAPD 2026 period), the weather is typically mild and summer-like. Average temperatures usually range from around **13°C to 21°C**, with occasional warmer days.

The climate is generally **mild with some cloud cover and a moderate chance of rain**, as is common in the United Kingdom.

We recommend attendees bring light clothing for daytime, **a light jacket or sweater for cooler moments, and a small umbrella or rain protection** just in case.

Morning Jogging

Join Us for a Morning Jog at EAPD 2026!

Redefine The Experience Of Anesthesia

For practitioners • For patients • For everyday care

INTRAOSSEROUS ANESTHESIA

Precise delivery. Immediate effect. No collateral numbness.

Targeted anesthesia delivered directly at the treatment site.

QuickSleeper®

PRECISION • EFFICIENCY • SAFETY • COMFORT

Soan

SleeperOne®

DIGITAL ANESTHESIA

Controlled flow. Gentle delivery. Greater comfort.

For smoother everyday local anesthesia.

Fast Clinical Effect

Reliable anesthesia response,
even in complex situations
like MIH.

Precise Injection Control

Controlled flow designed to
improve predictability and
practitioner confidence.

Comfort-Focused Care

Reduced stress,
gentle delivery and
pain-free anesthesia

Company Profiles

When it comes to children, you rarely get a second chance to make a first impression.

Delivering a successful and predictable anesthesia—pain-free, stress-less, immediately effective, and profound—is a true game-changer in building trust and securing full cooperation from young patients.

By avoiding the Inferior Alveolar Nerve Block and the risk of post-operative lip-biting caused by long-lasting anesthesia, you significantly enhance the experience for patients, their parents... and yourself.

Intraosseous anesthesia, delivered with digital injection systems such as QuickSleeper®, Soan® or SleeperOne®, has become a cornerstone of modern pediatric dentistry.

Visit Dentalhitec and experience it for yourself.

Headquartered in Lucerne, Switzerland, GC is a global leader in dental care and oral health. Active in more than 100 countries with over 3,500 Nakama (employees), the company delivers high quality products and solutions for dental professionals and patients. Since its founding in 1921, GC has advanced dentistry through continuous innovation, research, and world class manufacturing. Guided by its Vision 2031 to help build a healthy, long living society, GC is driven by the philosophy of 'Semui'—acting from the standpoint of others. This spirit unites its Nakama and inspires customer focused innovation that prioritises meaningful value and long term oral health.

Company Profiles

Forging new paths towards better dentistry.

Septodont is a world leader in the development, manufacturing and distribution of innovative dental products. With an entrepreneurial spirit and ambitious growth goals, we leverage emerging technology to turn novel ideas into innovative solutions. Septodont combines deep pharma expertise, vast manufacturing capabilities and a broad distribution network to deliver the safest, highest-quality dental products worldwide.

We envision a future where every tooth is saved, every treatment is painless, and every dental professional is equipped for success. We strive to make a positive impact everywhere we operate, achieving growth while maintaining sustainable, responsible and ethical practices.

Our products portfolio includes:

- Pain Management
- Endodontics
- Periodontology
- Dentin Restoration
- Surgery
- Impression

3M's healthcare business is now a standalone company: Solventum. We partner with you to reimagine oral care delivery, by developing innovative dental and orthodontic solutions to help practitioners around the world create beautiful, healthy smiles that patients want. With decades of innovation behind us, we're here to help you advance your practice, improve patient experiences and transform how you deliver care.

SWITZERLAND

BIOMIMETIC DENTAL SCIENCE

vVARDIS is an innovative Swiss healthcare company, pioneering new approaches in the treatment of early-stage caries. Using scientifically proven biomimetic technologies, vVARDIS develops minimally invasive solutions that enable dental professionals to preserve natural tooth structure and promote enamel regeneration.

Founded by Dr. Haley and Dr. Goly Abivardi, DMDs, the vVARDIS builds on over 25 years of research to advance modern caries care, with the goal of setting new standards and expanding global access to innovative therapies. Its star product, Curodont Repair™, regenerates enamel without drilling or injections, preserving natural tooth structure without artificial filling materials.
